Conference Committee changes narrative:

- ¹ Restores funding reduced by the Senate for temporary and overtime salaries in the plant services program, the same as the House version.
- ² Reduces operating expenses. The commissioner may determine the specific areas of reduction within this line item. The House had reduced the operating expenses line item by \$200,000 and allowed the commissioner line item transfer authority of up to \$100,000 without Emergency Commission approval.
- ³ Reduces the agriculture mediation line item by \$50,000 from the general fund. The House had reduced this line item by \$75,000, \$20,000 of which was from the general fund and had eliminated one FTE position. The conference committee did not remove an FTE position for agriculture mediation.
- ⁴ Adds funding from the environment and rangeland protection fund for purchasing computers and related costs for Project Safe Send.
- ⁵ Adds \$45,000 from the environment and rangeland protection fund for a .5 FTE position for minor use product registration activities, including writing and preparing federal Sections 18 and 24 crop pesticide registrations for minor use labeling. The department may use this funding to increase a .5 FTE position to a one FTE position for performing these activities.

Sections are added that:

Expand the use of the minor use pesticide fund for registering pesticides on more than just minor crops.

Increase the biennial pesticide registration fee from \$300 to \$350. The additional funds collected will be deposited in the environment and rangeland protection fund. The increase is effective only through June 30, 2001. The House had increased this fee by \$100 and deposited \$17 of the increase into the general fund and the remaining \$83 into the environment and rangeland protection fund.

Transfer \$285,000 from the environment and rangeland protection fund to the minor use pesticide fund. The House had provided for a transfer of \$85,000.

Provide legislative intent that the Agriculture Department, the Agricultural Experiment Station, and the NDSU Extension Service use resources available to them to assist in the registration of crop protection pesticides in cooperation with the crop protection industry for use in North Dakota.

Appropriate \$65,000 from the general fund for the remainder of the 1997-99 biennium for indemnifying the owner and paying other expenses associated with destroying cattle infected with bovine tuberculosis. The House had appropriated \$25,000 for this purpose.

Provide for periodic reports to the Budget Section on the status of the bovine tuberculosis infection in cattle in North Dakota and associated costs during the 1999-2000 interim.

Allow an income tax exemption for 1999 and 2000 for any indemnity received as a result of the bovine tuberculosis infection in cattle herds in North Dakota.

Sections added by the House are not included which would have provided that the Agriculture Commissioner charge wholesalers and manufacturers for the actual costs of disposing of their products under Project Safe Send and that products which are not a direct danger to the public should be disposed of by the owner in a proper manner rather than under Project Safe Send.
