SECTION 29. AMENDMENT. Section 15-59-06 of the 1997 Supplement to the North Dakota Century Code is amended and reenacted as follows:

15-59-06. State cooperation in special education. Students with disabilities who are receiving special education services must be deemed to be regularly enrolled in the school district of residence and must be included in the determination of payments from the state foundation aid program whether or not the students regularly attend school in the school or school district receiving the payments. A prorated state foundation aid payment for a student to attend a public school program for students with disabilities, approved by the superintendent of public instruction, may be made if the individualized education program for the student is written during the last quarter of the school term and specifically requires that the student attend a summer special education program. In the case of a student who is enrolled in a nonpublic school but who attends a public school special education program, payments must be made to the appropriate public school district for the portion of a normal schoolday the student participates in special education. For the purposes of this section, a normal schoolday consists of six hours. The amount the school district is required to expend must be reduced proportionately if a student attends the school for less than an entire year. If any school district within a special education unit has a student with disabilities who, in the opinion of the student's multidisciplinary team, is unable to attend the public schools in the special education unit because of a disability, the school district shall contract with an in-state public school located outside the special education unit in which the student is a legal resident, if the school will accept the student and has proper services for the student's education. No school district may enter into a contract with any in-state public school for the education of any student because of a disability, unless the services provided by the school and the contract have been approved in advance by the superintendent of public instruction. The contract must provide that the school district agrees to pay to the in-state public school as part of the cost of educating the student an amount for the school year equal to two and one-half times the state average per student elementary or high school cost, depending upon the student's level of enrollment. The payment may not exceed the actual per student cost incurred by the in-state public school. The school district's liability must be reduced proportionately if the student attends the in-state public school for less than an entire year. The superintendent of public instruction, upon notification by the admitting district and upon verification by the superintendent that tuition payments are due the admitting district and are unpaid, shall withhold all payments from the state for foundation aid payments to the district of residence an amount equal to the unpaid tuition until the tuition due that amount has been paid. The transportation must be furnished as provided by rules of the superintendent of public instruction. The superintendent of public instruction shall reimburse school districts eighty percent of the remainder of the actual cost of educating the student with disabilities not covered by other payments or credits ~~must be paid from funds,~~ within the limits of legislative appropriations for that purpose.

SECTION 30. AMENDMENT. Section 15-59-06.2 of the North Dakota Century Code is amended and reenacted as follows:

15-59-06.2. Cost of special education - Liability of school district. If allowable costs for special education and related services for a child with disabilities in a special education program, as determined by the superintendent of public instruction, exceed the reimbursement provided by the state, the school district is liable to pay for each such student an amount over the state reimbursement up to a maximum each school year of two and one-half times the state average per pupil per student elementary or high school cost, depending on whether the enrollment would be in a grade or high school department, and twenty percent of all remaining costs. The two and one-half times amount includes the amount the school district is required to pay in section 15-59-06. The state is liable for one hundred eighty percent of the remainder of the cost of education and related services for each such student with disabilities within the limits of legislative appropriations for that purpose.

SECTION 31. AMENDMENT. Section 15-59-07 of the 1997 Supplement to the North Dakota Century Code is amended and reenacted as follows:

15-59-07. Contracts for students with disabilities to attend private or out-of-state public schools. If any school district in this state has a student with disabilities who in the opinion of the student's multidisciplinary team is unable to attend the public schools in the district because of a physical or mental disability or because of a learning disability, the school district shall contract with any accredited private nonsectarian nonprofit corporation within or outside the state or an out-of-state public school which has proper facilities for the education of the student, if there is no public school in the state which has the necessary services and which will accept the student. No school district may enter a contract with any private nonsectarian nonprofit corporation or out-of-state public school for the education of any student having a physical or learning disability, unless the services provided by the school and the contract have been approved in advance by the superintendent of public instruction. The contract must provide that the school district agrees to pay to the private nonsectarian nonprofit corporation or the out-of-state public school as part of the cost of educating the student an amount for the school year equal to two and one-half times the state average per student elementary or high school cost, depending upon the student's level of enrollment and twenty percent of all remaining costs. The payment may not exceed the actual per student cost incurred by the private nonsectarian nonprofit corporation or out-of-state public school. The transportation must be furnished and reimbursed as provided by rules of the superintendent of public instruction. ~~The remainder of the actual cost of educating the student with disabilities not covered by other payments or credits must be paid from funds appropriated by the legislative assembly for special education notwithstanding limitations cited in section 15-59-06.~~ The superintendent of public instruction shall reimburse school districts eighty percent of the remainder of the actual cost of educating each student with disabilities not covered by other payments or credits within the limits of legislative appropriations for that purpose. The district of residence is entitled to the per student foundation payment.

SECTION 32. AMENDMENT. Section 44-03-01 of the North Dakota Century Code is amended and reenacted as follows:

44-03-01. Deputies may be appointed by certain officers. The secretary of state, state auditor, state treasurer, ~~superintendent of public instruction,~~ commissioner of insurance, commissioner of agriculture, commissioner of labor, district assessor, and city assessor each may appoint a deputy for whose acts as such ~~he~~ the officer shall be responsible. Each officer required to give a bond may require a bond from any deputy appointed by ~~him~~ the officer. Any such bond must be in the penal sum of not more than half the penal sum of the appointing officer's own bond and may be retained by the officer for ~~his~~ the officer's own protection. Such appointment must be in writing and is revocable in writing at the pleasure of the principal, and such appointment and revocation must be filed as the bond and oath of the principal are filed.

SECTION 33. AMENDMENT. Section 54-44.1-12 of the 1997 Supplement to the North Dakota Century Code is amended and reenacted as follows:

54-44.1-12. Control over rate of expenditures. The director of the budget shall exercise continual control over the execution of the budget affecting the departments and agencies of state government, with the exception of the legislative and judicial branches. Execution means the analysis and approval of all commitments for conformity with the program provided in the budget, frequent comparison of actual revenues and budget estimates, and on the basis of these analyses and comparisons control the rate of expenditures through a system of allotments. The allotment must be made by specific fund and all departments and agencies that receive moneys from that fund must be allotted on a uniform percentage basis, except that appropriations to the department of public instruction for foundation aid, transportation aid, and special education aid may only be allotted to the extent that the allotment can be offset by transfers from the foundation aid stabilization fund. Before an allotment is made which

will reduce the amount of funds which can be disbursed pursuant to an appropriation or before an allotment disallowing a specific expenditure is made, the director shall find one or more of the following circumstances to exist:

1. The moneys and estimated revenues in a specific fund from which the appropriation is made are insufficient to meet all legislative appropriations from the fund.
2. The payment or the obligation incurred is not authorized by law.
3. The expenditure or obligation is contrary to legislative intent as recorded in any reliable legislative records, including:
 - a. Statements of legislative intent expressed in enacted appropriation measures or other measures enacted by the legislative assembly; and
 - b. Statements of purpose of amendment explaining amendments to enacted appropriation measures, as recorded in the journals of the legislative assembly.
4. Circumstances or availability of facts not previously known or foreseen by the legislative assembly which make possible the accomplishment of the purpose of the appropriation at a lesser amount than that appropriated."
