**19-18-04. Registration - Fees.** Any person before selling or offering for sale any pesticide for use within this state shall file biennially with the commissioner an application for registration of the pesticide. The application must:

- 1. Give the name and address of each manufacturer or distributor.
- 2. Give the name and brand of each product registered.
- 3. Be accompanied by a current label of each product so registered.
- 4. Be accompanied by a registration fee of three four hundred dollars for each product registered. At the close of each calendar month, the commissioner shall transmit to the state treasurer all moneys received for the registrations. The state treasurer shall credit fifty sixty-seven dollars for each registered product to the general fund in the state treasury and the remainder of the registration fee for each registered product to the environment and rangeland protection fund.
- 5. Be accompanied by a material safety data sheet.

The commissioner may require an applicant or registrant to provide efficacy, toxicity, residue, and any other data necessary to determine if the pesticide will perform its intended function without unreasonable adverse effects on the environment. If the commissioner finds that the application conforms to law, the commissioner shall issue to the applicant a certificate of registration of the product. If after public hearing before the commissioner the application is denied, the product may not be offered for sale.

Each registration covers a two-year period beginning January first and expiring December thirty-first of the following year. A certificate of registration may not be issued for a term longer than two years, and is not transferable from one person to another, or from the ownership to whom issued to another ownership, or from one place to another place or location. A penalty of fifty percent of the license or registration fee must be imposed if the license or certificate of registration is not applied for on or before January thirty-first following the expiration date, or within the same month the pesticides are first manufactured or sold within this state. Each product must go through a two-year discontinuance period in order to clear all outstanding products in the channel of trade.

This section does not apply to a pesticide sold by a retail dealer if the registration fee has been paid by the manufacturer, jobber, or any other person, as required by this section."

An employee who transferred from the public employees retirement system prior to March 30, 1987, and who received a refund of that employee's contribution is entitled to have the employer's contribution, with interest, used to purchase an annuity even if that employee did not purchase an annuity in the alternate employee program with the employee's contribution. **SECTION 25. AMENDMENT.** Section 15-59-06 of the 1997 Supplement to the North Dakota Century Code is amended and reenacted as follows:

15-59-06. State cooperation in special education. Students with disabilities who are receiving special education services must be deemed to be regularly enrolled in the school district of residence and must be included in the determination of payments from the state foundation aid program whether or not the students regularly attend school in the school or school district receiving the payments. A prorated state foundation aid payment for a student to attend a public school program for students with disabilities, approved by the superintendent of public instruction, may be made if the individualized education program for the student is written during the last quarter of the school term and specifically requires that the student attend a summer special education program. In the case of a student who is enrolled in a nonpublic school but who attends a public school special education program, payments must be made to the appropriate public school district for the portion of a normal schoolday the student participates in special education. For the purposes of this section, a normal schoolday consists of six hours. The amount the school district is required to expend must be reduced proportionately if a student attends the school for less than an entire year. If any school district within a special education unit has a student with disabilities who, in the opinion of the student's multidisciplinary team, is unable to attend the public schools in the special education unit because of a disability, the school district shall contract with an in-state public school located outside the special education unit in which the student is a legal resident, if the school will accept the student and has proper services for the student's education. No school district may enter into a contract with any in-state public school for the education of any student because of a disability, unless the services provided by the school and the contract have been approved in advance by the superintendent of public instruction. The contract must provide that the school district agrees to pay to the in-state public school as part of the cost of educating the student an amount for the school year equal to two and one half three times the state average per student elementary or high school cost, depending upon the student's level of enrollment. The payment may not exceed the actual per student cost incurred by the in-state public school. The school district's liability must be reduced proportionately if the student attends the in-state public school for less than an entire year. The superintendent of public instruction, upon notification by the admitting district and upon verification by the superintendent that tuition payments are due the admitting district and are unpaid, shall withhold all payments from the state for foundation aid payments to the district of residence an amount equal to the unpaid tuition until the tuition due that amount has been paid. The transportation must be furnished as provided by rules of

the superintendent of public instruction. The <u>superintendent of public instruction shall</u> <u>reimburse school districts eighty percent of the</u> remainder of the actual cost of educating the student with disabilities not covered by other payments or credits <del>must be paid from funds</del>, within the limits of legislative appropriations for that purpose.

**SECTION 26. AMENDMENT.** Section 15-59-06.2 of the North Dakota Century Code is amended and reenacted as follows:

**15-59-06.2.** Cost of special education - Liability of school district. If allowable costs for special education and related services for a child with disabilities in a special education program, as determined by the superintendent of public instruction, exceed the reimbursement provided by the state, the school district is liable to pay for each such student an amount over the state reimbursement up to a maximum each school year of two and one half three times the state average per-pupil per student elementary or high school cost, depending on whether the enrollment would be in a grade or high school department, and twenty percent of all remaining costs. The two and one half three times amount includes the amount the school district is required to pay in section 15-59-06. The state is liable for one hundred eighty percent of the remainder of the cost of education and related services for each such student with disabilities within the limits of legislative appropriations for that purpose.

**SECTION 27. AMENDMENT.** Section 15-59-07 of the 1997 Supplement to the North Dakota Century Code is amended and reenacted as follows:

15-59-07. Contracts for students with disabilities to attend private or out-of-state public schools. If any school district in this state has a student with disabilities who in the opinion of the student's multidisciplinary team is unable to attend the public schools in the district because of a physical or mental disability or because of a learning disability, the school district shall contract with any accredited private nonsectarian nonprofit corporation within or outside the state or an out-of-state public school which has proper facilities for the education of the student, if there is no public school in the state which has the necessary services and which will accept the student. No school district may enter a contract with any private nonsectarian nonprofit corporation or out-of-state public school for the education of any student having a physical or learning disability, unless the services provided by the school and the contract have been approved in advance by the superintendent of public instruction. The contract must provide that the school district agrees to pay to the private nonsectarian nonprofit corporation or the out-of-state public school as part of the cost of educating the student an amount for the school year equal to two and one half three times the state average per student elementary or high school cost, depending upon the student's level of enrollment and twenty percent of all remaining costs. The payment may not exceed the actual per student cost incurred by the private nonsectarian nonprofit corporation or out-of-state public school. The transportation must be furnished and reimbursed as provided by rules of the superintendent of public instruction. The remainder of the actual cost of educating the student with disabilities not covered by other payments or credits must be paid from funds appropriated by the legislative assembly for special education notwithstanding limitations cited in section 15-59-06. The superintendent of public instruction shall reimburse school districts eighty percent of the remainder of the actual cost of educating each student with disabilities not covered by other payments or credit within the limits of legislative appropriations for that purpose. The district of residence is entitled to the per student foundation payment.

House changes narrative:

This amendment makes the following changes:

- Provides in Section 6 of the engrossed bill that the Educational Telecommunications Council may establish a minimum grant amount of \$5,000 and provides that for a school district to be eligible to receive a grant, the school district administrative office must be connected to the Internet.
- Removes Section 7, which provided legislative intent regarding the use of grants distributed by the Educational Telecommunications Council.
- Adds a new Section 17, which provides that prior to implementing any change in the credentialing process for special education teachers, the Superintendent of Public Instruction must obtain the approval of certain education-related groups.
- Adds a new Section 18, which directs the Superintendent of Public Instruction to develop standardized reporting forms for the reporting of financial data.
- Adds a new Section 19, which directs the department to participate in the national assessment of educational progress (NAEP) testing program.
- Adds a new Section 20, which urges Congress and the President to provide funding for special education students equal to 40 percent of the national average educational expenditure per student.
- Amends North Dakota Century Code (NDCC) Sections 15-21-03 and 15.1-02-03 to remove statutory references to the Deputy Superintendent of Public Instruction.

- Amends NDCC Sections 15-59-06, 15-59-06.2, and 15-59-07 to increase the amount school districts are liable to pay for extraordinary special education costs from 2.5 times the state average educational expenditure per student to three times the state average, plus 20 percent of any additional costs.
- · Creates a new section to NDCC Chapter 15-59 to create a special education critical needs board.
- Increases from \$10.5 million to \$11 million (Section 5 of the bill) the amount of the special education appropriation to be used for reimbursing districts for special education contract costs. This results in a corresponding \$500,000 decrease in the amount to be distributed on a per student basis pursuant to subsection 3 of Section 5. Section 5, as amended, provides that the \$46.1 million special education grants line item will be distributed as follows:
  - \$11 million for special education contract costs.
  - \$400,000 for gifted and talented programs.
  - \$34.7 million for per student special education payments.
- Removes Section 20 of the engrossed bill, which repealed Section 2 of Senate Bill No. 2381. Section 2 of Senate Bill No. 2381 provided a \$400,000 appropriation for payments to schools with students with limited English proficiency. However, this section of Senate Bill No. 2381 was removed by amendments recommended by the House Education Committee and adopted by the House. The foundation aid line item of Senate Bill No. 2013 contains the required \$400,000 appropriation for these payments.
- <sup>1</sup> Removes the following FTE positions:

Teacher IV	0006	1.00		\$81,619	\$81,619
