Not later than December first, the superintendent of public instruction shall certify to the office of management and budget a list of the school districts and schools not operated by school districts entitled to payments from state funds, together with the amounts to which the several districts and schools are entitled. Per student aid as provided under sections 15-40.1-06, 15-40.1-07, and 15-40.1-08 must be computed on the basis of the previous year's average daily membership less the number of students attending school during the current school year in another district under the provisions of open enrollment or the current year's fall enrollment, whichever provides the greatest payment, for all current grade levels. Adjustments must be made in the subsequent year according to a comparison between the average daily membership for the year for which the adjusted payment is being made and the year preceding the year for which the adjusted payment is being made, whichever is greater, for grade levels that existed in both years. The greater of the two preceding years' average daily membership must be used in computing any adjustment in a district's foundation aid payments. For purposes of this chapter, "average daily membership" means the total days all students in a given school are in attendance, including ~~two five days set aside for the North Dakota education association instructional conference, three holidays listed in subsections 2 through 10 of section 15-38-04.4~~ two five days set aside for the North Dakota education association instructional conference, three holidays listed in subsections 2 through 10 of section 15-38-04.4 which have been selected by the school board in consultation with the teachers for holidays, continuing education activities, and school activities, and up to two full days during which parent-teacher conferences are held, divided by one hundred eighty days. School districts educating children of agricultural migratory workers or offering high school summer school programs during the months of June, July, and August shall not be restricted to payments for a one hundred eighty-day school term.

Immediately upon the termination of the school year, and in no event later than July fifteenth of each year, the business manager of each school district within or without this state which has received payments from state funds under the provisions of this chapter shall file with the county superintendent of schools a verified statement of the name, residence, and membership of elementary and high school students as provided for in this section, and number of units of high school work taken by each high school student enrolled during the previous school year. The statement shall be

attested to by the county superintendent of schools. The county superintendent shall investigate the validity of the statement and shall determine the residence and other qualifications of each student named in the statement. The county superintendent shall certify to the superintendent of public instruction on or before September first of each year the number of enrolled students in each district in the county for the previous school year upon which any adjustment may be based as provided in this section. If any statement is disallowed in whole or in part, notice of the disallowance and the names of students who are disallowed shall be reported to the superintendent of public instruction and to the district filing the statement. Any district may appeal to the superintendent of public instruction from the determination of the county superintendent of schools on or before September fifteenth in the year in which the determination is made. The superintendent of public instruction may change or modify the determination of the county superintendent if the evidence submitted by the district warrants a modification.
