2. **Narrative:** *Identify the aspects of the measure which cause fiscal impact and include any comments relevant to your analysis.*

This bill allows the interest earned from the community health trust fund and the water development trust fund to be deposited into the community health trust fund. The interest currently is being deposited into the general fund. According to the budget committee on health care, it is estimated that based on a 4.9 percent interest rate, the July 1, 2001 balance of \$5.2 million in the community health trust fund will generate \$510,000 of interest income per biennium and will remain in the fund. It is estimated that based on a 4.9 percent interest rate, the July 1, 2001 balance of \$3 to \$5 million in the water development trust fund will generate \$900,000 of interest income per biennium and will be transferred from the water development trust fund to the community health trust fund, for a total \$1.41 million of interest income per biennium.

3. **State fiscal effect detail:** *For information shown under state fiscal effect in 1A, please:*

A. **Revenues:** *Explain the revenue amounts. Provide detail, when appropriate, for each revenue type and fund affected and any amounts included in the executive budget.*

The amount is based on an interest rate of 4.9 percent on funds in the community health trust fund and the water development trust fund. It would reduce the general fund income by \$1.41 million and increase moneys in the community health trust fund by \$1.41 million.

B. **Expenditures:** *Explain the expenditure amounts. Provide detail, when appropriate, for each agency, line item, and fund affected and the number of FTE positions affected.*

C. **Appropriations:** *Explain the appropriation amounts. Provide detail, when appropriate, of the effect on the biennial appropriation for each agency and fund affected and any amounts included in the executive budget. Indicate the relationship between the amounts shown for expenditures and appropriations.*
