3 A tract of land lying in the Northwest Quarter (NW 1/4) of Section

27 described line, subject to existing rights-of-way and easements.

28 The above described tract of land contains 11.77 acres, more or less.

29 2. The conveyance authorized by this section is exempt from sections 54-01-05.2
30 and 54-01-05.5. The conveyance may only be made after the property has been
31 appraised and the property must be sold at public auction unless no bid equals or

1 exceeds the minimum appraised value. The appraisal must be dated no earlier
2 than eighteen months before the auction. If at the public auction no bid equals or
3 exceeds the minimum appraised value, the state water commission may negotiate
4 a price for the land with a purchaser.

5 3. All proceeds from the sale or so much of the sale proceeds as may be necessary,
6 not otherwise appropriated, are appropriated on a continuing basis to the state
7 water commission for the purchase or lease of land and the construction of a
8 building and associated appurtenances to be used as a new maintenance facility.
9 The purchase authorized by this subsection may proceed only after completion of

19 proceeds from the sale are less than \$977,100, the state water commission may use other
20 funds appropriated to the state water commission for the purpose of purchasing or leasing land
21 and constructing a new maintenance shop building. If the proceeds from the sale are not
22 available at the time the state water commission needs to purchase or lease land and construct
23 the new building and associated appurtenances, the state water commission may use other
24 funds appropriated to the commission provided that, upon receipt of the proceeds of the sale,
25 the state water commission shall transfer to the funds from which money was taken an amount
26 equal to any funds utilized for the purchase or lease of land and construction of the new
27 maintenance building. If the state water commission uses other funds appropriated to the
28 commission because the funds from the sale of the land and building are insufficient, the state
29 water commission need not make a transfer of sale proceeds. No more than a total of
30 \$977,100 may be expended from the amounts appropriated under this Act to purchase land
31 and construct the new maintenance building and associated appurtenances.
