2. **Narrative:** *Identify the aspects of the measure which cause fiscal impact and include any comments relevant to your analysis.*

SB 2170 grants a sales tax exemption for carbon dioxide used for enhanced recovery. The bill also exempts from the oil extraction tax the incremental production from a tertiary recovery project.

3. **State fiscal effect detail:** *For information shown under state fiscal effect in 1A, please:*

A. **Revenues:** *Explain the revenue amounts. Provide detail, when appropriate, for each revenue type and fund affected and any amounts included in the executive budget.*

Sections 1 and 2 of SB 2170 provide a sales tax exemption for carbon dioxide used in enhanced oil recovery. Currently CO2 is not used in enhanced oil recovery. The fiscal impact of this provision would depend on if a CO2 project is undertaken in the biennium, the cost of the CO2 and the amount used in the project, all of which are unknown.

Section 3 grants a permanent exemption from the oil extraction tax for incremental production from a tertiary recovery project. It is estimated that Section 3 of SB 2170, if enacted, will result in a reduction in oil extraction tax revenue totaling \$1,016,000 for the 2005-07 biennium.

B. **Expenditures:** *Explain the expenditure amounts. Provide detail, when appropriate, for each agency, line item, and fund affected and the number of FTE positions affected.*

C. **Appropriations:** *Explain the appropriation amounts. Provide detail, when appropriate, of the effect on the biennial appropriation for each agency and fund affected and any amounts included in the executive budget. Indicate the relationship between the amounts shown for expenditures and appropriations.*
