HB 1215 enables the individual income tax credit for long-term care insurance premiums to be claimed on the state's standard individual income tax form, Form ND-1. Current law allows this credit only on the optional form (formerly "long-form"), Form ND-2.

3. **State fiscal effect detail:** *For information shown under state fiscal effect in 1A, please:*

A. **Revenues:** *Explain the revenue amounts. Provide detail, when appropriate, for each revenue type and fund affected and any amounts included in the executive budget.*

Based on statistics from the Insurance Department, it is estimated that approx. 29,000 individuals are covered by long-term care insurance. Allowing a Form ND-1 tax credit of up to \$100 for each individual covered by a policy is expected to decrease state general fund revenues by \$5,560,000 in the 2005-07 biennium.

B. **Expenditures:** *Explain the expenditure amounts. Provide detail, when appropriate, for each agency, line item, and fund affected and the number of FTE positions affected.*

C. **Appropriations:** *Explain the appropriation amounts. Provide detail, when appropriate, of the effect on the biennial appropriation for each agency and fund affected and any amounts included in the executive budget. Indicate the relationship between the amounts shown for expenditures and appropriations.*
