This bill sets the per student payment amount for state aid payments to school districts at \$2,726 the first year and \$2,826 the second year of the 2005-2007 biennium, reconfigures the weighting factor categories, increases the weighting factor adjustment percentage for isolated schools, provides that 70% of the increase in state aid and tuition apportionment must be used for increasing teacher compensation and provides for contingent payments for reorganization bonuses and additional per student payments.

3. **State fiscal effect detail:** *For information shown under state fiscal effect in 1A, please:*

A. **Revenues:** *Explain the revenue amounts. Provide detail, when appropriate, for each revenue type and fund affected and any amounts included in the executive budget.*

B. **Expenditures:** *Explain the expenditure amounts. Provide detail, when appropriate, for each agency, line item, and fund affected and the number of FTE positions affected.*

Expenditures related to this bill are \$512,153,759. This is the amount appropriated in the executive budget recommendation for State school aid - per student and transportation. Because the bill provides that all funding appropriated will be distributed to school districts, the amendments only impact the method in which funding is distributed among the school districts.

C. **Appropriations:** *Explain the appropriation amounts. Provide detail, when appropriate, of the effect on the biennial appropriation for each agency and fund affected and any amounts included in the executive budget. Indicate the relationship between the amounts shown for expenditures and appropriations.*
