under this title.

- gas and to set the director's salary within the limits of legislative appropriations. The industrial commission may designate the state geologist as the director of oil and gas. The industrial commission is authorized to appoint a director of mineral resources who shall serve at the pleasure of the commission. The director of mineral resources shall carry out the duties of the director of oil and gas along with the duties of director of mineral resources. The commission may set the salary of the director of mineral resources. The commission may delegate to the director of oil and gas all powers the commission has under this title and under rules enacted
  - **SECTION 18. AMENDMENT.** Section 38-12-02 of the North Dakota Century Code is amended and reenacted as follows:
  - **38-12-02. Jurisdiction of commission.** The commission has jurisdiction and authority over all persons and property, public and private, necessary to enforce effectively the provisions of this chapter. Subject to the provisions of section 38-08-21, the state geologist director of mineral resources shall act as a supervisor charged with the duty of enforcing the regulations and orders of the commission applicable to the subsurface mineral resources of this state and the provisions of this chapter. The commission has authority to make such investigations as it deems proper to determine whether facts exist which justify action by the commission. The commission acting through the office of the state geologist director of mineral resources has the authority:

### 1. To require:

a. The furnishing of a reasonable bond with good and sufficient surety, conditioned upon the full compliance with the provisions of this chapter, and the rules and orders of the commission prescribed to govern the exploration, development, and production of subsurface minerals on state and private lands within the state of North Dakota. The person required to furnish the bond may elect to deposit a collateral bond, self-bond, cash, or any alternative form of security approved by the commission, or combination thereof, by which a permittee assures faithful performance of all requirements of this chapter and the rules and orders of the industrial commission.

1 b. The delivery, free of charge, to the state geologist of the basic exploration 2 data collected by the operator, within thirty days of field collection of such 3 data. This data must include: 4 (1) Sample cuts, core chips, or whole cores. 5 (2) Sample logs, radioactivity logs, resistivity logs, or other types of 6 electrical or mechanical logs. 7 (3)Elevation and location information on the data collection points. 8 (4) Other pertinent information as may be requested by the state geologist. 9 The data so submitted is confidential for a period of one year when so 10 requested by the operator and such period may be further extended upon 11 approval by the commission. 12 C. The filing of monthly production reports in the manner prescribed by the 13 commission and any other reports deemed necessary by the commission. 14 d. The conducting of all exploration, development, and production operations in 15 such a manner as to prevent pollution of freshwater supplies, to provide for 16 the protection of the environment and public safety, and to ensure the 17 optimum recovery of the mineral resource. 18 The reclamation of all land disturbed by operations regulated by this chapter e. 19 to a condition consistent with prior land use and productive capacity. 20 2. To regulate the drilling and abandonment of exploration test holes and producing 21 wells and all other exploration, development, production, and reclamation 22 operations. 23 3. To promulgate and to enforce rules, regulations, and orders to effectuate the 24 purposes and the intent of this chapter. 25 To inspect all exploration, development, and production sites. For the purposes of 26 this subsection, the state geologist director of mineral resources or the state 27 geologist's director's representative shall have access to all exploration, 28 development, or production installations for purposes of inspection and shall have 29 the authority to require the operator's aid if same it is necessary and is requested. 30 **SECTION 19. AMENDMENT.** Section 38-12-03 of the North Dakota Century Code is 31 amended and reenacted as follows:

**38-12-03. Permit required.** It is unlawful to commence operations for the exploration, development, or production of subsurface minerals without first obtaining a permit from the state geologist director of mineral resources, under such rules and regulations as may be prescribed by the commission and paying to the commission a fee for each such permit in an amount to be prescribed by the commission.

**SECTION 20. AMENDMENT.** Section 38-12.1-04 of the North Dakota Century Code is amended and reenacted as follows:

**38-12.1-04. Jurisdiction of commission.** The commission has jurisdiction and authority over all persons and property, both public and private, necessary to effectively enforce the provisions of this chapter. The <u>state geologist director of mineral resources</u> shall act as a supervisor charged with the duty of enforcing the regulations and orders of the commission applicable to the provisions of this chapter. The commission has authority to make such investigations as it deems proper to determine whether facts exist which justify action by the commission. The commission acting through the <u>office of the state geologist director of mineral</u> resources has the authority:

### 1. To require:

- a. The furnishing of a reasonable bond with good and sufficient surety, conditioned upon the full compliance with the provisions of this chapter, and the rules and orders of the commission prescribed to govern the exploration for coal on state and private lands and roads used in coal exploration within the state of North Dakota. The person required to furnish the bond may elect to deposit a collateral bond, self-bond, cash, or any alternative form of security approved by the commission, or combination thereof, by which a permittee assures faithful performance of all requirements of this chapter and the rules and orders of the industrial commission.
- b. The delivery, free of charge, to the state geologist of the basic data collected during the course of the exploration within a reasonable time as may be prescribed by the state geologist. The data so submitted is confidential and available only to the office of the state geologist for official purposes for a period of two years, and such period of confidentiality must, upon application, be extended for one-year periods by the state geologist, for a total period not

31

1 to exceed ten years unless it is demonstrated that such period should be 2 further extended in order to prevent possible resulting harm to the person, or 3 the persons' successors and assigns, who delivered such basic data to the 4 state geologist. The basic data must include, if specifically requested by the 5 state geologist and if the information has been developed by or for a person 6 conducting the exploration: 7 Sample cuts. (1) 8 (2) Drillers' logs, sample logs, radioactivity logs, resistivity logs, or other 9 types of electrical or mechanical logs. 10 Elevation and location information on the data collection points. (3) 11 (4) Other pertinent information as may be required by the state geologist. 12 2. To require the plugging, covering, or reburial in an appropriate manner so as to 13 protect environmental quality, general health and safety, and economic values of 14 all holes, pits, or trenches excavated during the course of coal exploration. 15 3. To promulgate and enforce rules, regulations, and orders to effectuate the 16 provisions, purpose, and intent of this chapter. 17 4. To inspect all drilling or exploration sites. For the purposes of this subsection, the 18 state geologist director of mineral resources or the state geologist's the director's 19 representative shall have access to all drilling or exploration installations regulated 20 by this chapter for the purpose of inspection and sampling and shall have the 21 authority to require the operators' aid if the state geologist or the state geologist's 22 representative director finds it necessary and requests it. 23 Notwithstanding any of the other provisions of this section, the commission acting 5. 24 through the office of the state geologist director of mineral resources shall require 25 that any lands substantially disturbed in coal exploration, including excavations, 26 roads, and drill holes, and the removal of necessary facilities and equipment be 27 reclaimed in accordance with the applicable performance standards of section 28 38-14.1-24. Reclamation must be accomplished so as to protect environmental 29 quality, general health and safety, and economic values.

Century Code is amended and reenacted as follows:

SECTION 21. AMENDMENT. Subsection 1 of section 38-12.1-05 of the North Dakota

1. It is unlawful to commence operations for drilling for the exploration for coal without first obtaining a permit from the state geologist director of mineral resources, under such rules and regulations as may be prescribed by the commission, and paying to the commission a fee of one hundred dollars for each such permit area. The permit application must include a description of the exploration area and the period of proposed exploration. The permit must be granted within thirty days after a proper application is has been submitted therefor.

**SECTION 22. AMENDMENT.** Section 38-15-03 of the North Dakota Century Code is amended and reenacted as follows:

**38-15-03. Jurisdiction of commission.** The commission has continuing jurisdiction and authority over all persons and property, public and private, necessary to enforce effectively the provisions of this chapter. The state geologist director of mineral resources shall act as a supervisor charged with enforcing the regulations and orders of the commission applicable to the provisions of this chapter. The commission has authority to make investigations it deems proper to determine whether facts exist which justify action by the commission. The commission has the authority:

- To require the furnishing of a reasonable bond with good and sufficient surety, conditioned upon the full compliance with the provisions of this chapter, and the rules and regulations of the commission prescribed to govern, satisfy, and resolve conflicting interests among producers within North Dakota.
- To resolve conflicting interests of producers of natural resources which cannot be voluntarily concluded by them in the public interest to eliminate waste, to the end that the producer, landowner, and mineral owner realize the greatest possible economic advantage.
- 3. To promulgate and to enforce rules, regulations, and orders to effectuate the purposes and intent of this chapter.
- **SECTION 23. AMENDMENT.** Section 38-19-03 of the North Dakota Century Code is amended and reenacted as follows:
- **38-19-03. Jurisdiction of the commission.** The commission has jurisdiction and authority and is charged with the responsibility to enforce the provisions of this chapter. This chapter does not apply to any activity regulated under chapters 38-08, 38-12, 38-12.1, 38-14.1,

- and 61-28. The jurisdiction granted to the commission by this chapter is not exclusive and does not affect the jurisdiction of other governmental entities. The commission acting through the office of the state geologist director of mineral resources has the authority:
  - 1. To require:
    - a. Identification of ownership of all facilities, installations, and equipment used in the extraction of geothermal energy.
    - b. The making and filing of all logs and reports on facility location, drilling, boring, excavating, and construction and the filing, free of charge, of samples, core chips, and complete cores, when requested, in the office of the state geologist.
    - c. The drilling, boring, casing, excavating, plugging, and construction of facilities in a manner to prevent contamination and pollution of surface and ground water sources and unnecessary environmental degradation.
    - d. The furnishing of a reasonable bond with good and sufficient surety, conditioned upon the full compliance with this chapter and the rules and orders of the commission relating to the extraction of geothermal energy. The person required to furnish the bond may elect to deposit a collateral bond, self-bond, cash, or any alternative form of security approved by the commission, or combination thereof, by which a permittee assures faithful performance of all requirements of this chapter and the rules and orders of the industrial commission.
    - e. Metering or measuring all products extracted from or by means of a facility regulated by this chapter.
    - f. That every person who operates a geothermal energy extraction facility in this state shall keep and maintain complete and accurate records of the quantities and nature of products extracted from or by means of any facility, and the ultimate disposition of such products, which records must be available to the commission or its agents at all times, and that every such person file with the commission such reports as it may prescribe.

- g. That upon termination of the operation of any facility or activity regulated by this chapter, the operator of the facility shall restore the surface as nearly as possible to its original condition and productivity.

  2. To regulate:

  a. The drilling, boring, excavating, and construction of all geothermal energy
  - a. The drilling, boring, excavating, and construction of all geothermal energy extraction facilities.
  - Operations to assure the optimum performance of all facilities regulated under this chapter.
  - 3. To limit and prescribe the nature, quantity, and source of geothermal energy to be extracted from any facility regulated by this chapter.
  - 4. To adopt rules and issue orders to effectuate the purposes of this chapter.
  - **SECTION 24. AMENDMENT.** Section 38-19-04 of the North Dakota Century Code is amended and reenacted as follows:
  - **38-19-04. Permit or report required.** It is unlawful to commence any operations for the drilling, boring, excavating, or construction of a geothermal energy extraction facility, which is used for other than private residential heating and cooling purposes, without first securing a permit from the state geologist director of mineral resources, under such rules as may be adopted by the commission and after paying to the commission a fee for each such facility in an amount to be prescribed by the commission by rule. The fee set must be related to the cost or regulation and inspection under this chapter.
  - A report is required upon completion of any geothermal energy extraction facility used solely for private residential heating or cooling purposes. The report must be prepared by the geothermal energy extraction facility installer on a form provided by the state geologist and must be furnished to the state geologist within thirty days after the completion of the facility. The report must contain relevant information the state geologist requires relating to the environmental safety of the facility, including the facility owner and location, a log of formations penetrated, if any, system specifications and design, and fluids used in the facility.
  - All construction of geothermal energy extraction facilities must comply with rules adopted under this chapter.
- **SECTION 25. AMENDMENT.** Subsection 10 of section 38-15-02 of the North Dakota 31 Century Code is amended and reenacted as follows:
