Delivery of notice to a property owner under this section must be completed not fewer than thirty days before the meeting of the local equalization board. The tax commissioner shall prescribe suitable forms for this notice and the notice must show the true and full value as defined by law of the property, including improvements, that the assessor used in making the assessment for the

current year and for the year in which the last assessment was made and must also show the date prescribed by law for the meeting of the local equalization board of the assessment district in which the property is located and the meeting date of the county equalization board. **SECTION 4. AMENDMENT.** Section 57-15-01.1 of the North Dakota Century Code is amended and reenacted as follows:

- **57-15-01.1. Protection of taxpayers and taxing districts.** Each taxing district, except a school district, may levy the lesser of the amount in dollars as certified in the budget of the governing body, or the amount in dollars as allowed in this section, subject to the following:
  - 1. No taxing district may levy more taxes expressed in dollars than the amounts allowed by this section.
  - 2. For purposes of this section:
    - a. "Base year" means the taxing district's taxable year with the highest amount levied in dollars in property taxes of the three taxable years immediately preceding the budget year. For a park district general fund, the "amount levied in dollars in property taxes" is the sum of amounts levied in dollars in property taxes for the general fund under section 57-15-12 including any additional levy approved by the electors, the insurance reserve fund under section 32-12.1-08, the employee health care program under section 40-49-12, the public recreation system under section 40-55-09 including any additional levy approved by the electors, forestry purposes under section 57-15-12.1 except any additional levy approved by the electors, pest control under section 4-33-11, and handicapped person programs and activities under section 57-15-60;
    - b. "Budget year" means the taxing district's year for which the levy is being determined under this section;
    - c. "Calculated mill rate" means the mill rate that results from dividing the base year taxes levied by the sum of the taxable value of the taxable property in the base year plus the taxable value of the property exempt by local discretion or charitable status, calculated in the same manner as the taxable property; and
    - d. "Property exempt by local discretion or charitable status" means property exempted from taxation as new or expanding businesses under chapter 40-57.1; improvements to property under chapter 57-02.2; or buildings belonging to institutions of public charity, new single-family residential or townhouse or condominium property, property used for early childhood services, or pollution abatement improvements under section 57-02-08.
  - 3. A taxing district may elect to levy the amount levied in dollars in the base year. Any levy under this section must be specifically approved by a resolution approved by the governing body of the taxing district. Before determining the levy limitation under this section, the dollar amount levied in the base year must be:
    - a. Reduced by an amount equal to the sum determined by application of the base year's calculated mill rate for that taxing district to the final

base year taxable valuation of any taxable property and property exempt by local discretion or charitable status which is not included in the taxing district for the budget year but was included in the taxing district for the base year.

- b. Increased by an amount equal to the sum determined by the application of the base year's calculated mill rate for that taxing district to the final budget year taxable valuation of any taxable property or property exempt by local discretion or charitable status which was not included in the taxing district for the base year but which is included in the taxing district for the budget year.
- Reduced to reflect expired temporary mill levy increases authorized by the electors of the taxing district.
- 4. In addition to any other levy limitation factor under this section, a taxing district may increase its levy in dollars to reflect new or increased mill levies authorized by the legislative assembly or authorized by the electors of the taxing district.
- 5. Under this section a taxing district may supersede any applicable mill levy limitations otherwise provided by law, or a taxing district may levy up to the mill levy limitations otherwise provided by law without reference to this section, but the provisions of this section do not apply to the following:
  - Any irrepealable tax to pay bonded indebtedness levied pursuant to section 16 of article X of the Constitution of North Dakota.
  - The one-mill levy for the state medical center authorized by section 10 of article X of the Constitution of North Dakota.
- 6. A school district choosing to determine its levy authority under this section may apply subsection 3 only to the amount in dollars levied for general fund purposes under section 57-15-14 or, if the levy in the base year included separate general fund and special fund levies under sections 57-15-14 and 57-15-14.2, the school district may apply subsection 3 to the total amount levied in dollars in the base year for both the general fund and special fund accounts. School district levies under any section other than section 57-15-14 may be made within applicable limitations but those levies are not subject to subsection 3.
- 7. Optional levies under this section may be used by any city or county that has adopted a home rule charter unless the provisions of the charter supersede state laws related to property tax levy limitations.

**SECTION 5. AMENDMENT.** Section 57-15-14 of the North Dakota Century Code is amended and reenacted as follows:

- 57-15-14. Tax General fund levy limitations in school districts. The aggregate amount levied each year for the purposes listed in section 57-15-14.2 by any school district, except the Fargo school district, may not exceed the amount in dollars which the school district levied for the prior school year plus eighteen percent up to a general fund levy of one hundred eighty five mills on the dollar of the taxable valuation of the district, except that:
  - 1. In any school district having a total population in excess of four thousand according to the last federal decennial census:
    - a. There may be levied any specific number of mills that upon resolution of the school board has been submitted to and approved by a majority

- of the qualified electors voting upon the question at any regular or special school district election.
- b. There is no limitation upon the taxes which may be levied if upon resolution of the school board of any such district the removal of the mill levy limitation has been submitted to and approved by a majority of the qualified electors voting at any regular or special election upon such question.
- 2. In any school district having a total population of less than four thousand, there may be levied any specific number of mills that upon resolution of the school board has been approved by fifty five percent of the qualified electors voting upon the question at any regular or special school election.
- 3. In any school district in which the total assessed valuation of property has increased twenty percent or more over the prior year and in which as a result of that increase the school district is entitled to less in state aid payments provided in chapter 15.1-27 because of the deduction required in section 15.1-27-05, there may be levied any specific number of mills more in dollars than was levied in the prior year up to a general fund levy of one hundred eighty five mills on the dollar of the taxable valuation of the school district. The additional levy authorized by this subsection may be levied for not more than two years because of any twenty percent or greater annual increase in assessed valuation. The total amount of revenue generated in excess of the eighteen percent increase which is otherwise permitted by this section may not exceed the amount of state aid payments lost as a result of applying the deduction provided in section 15.1-27-05 to the increased assessed valuation of the school district in a one-year period.

The question of authorizing or discontinuing such specific number of mills authority or unlimited taxing authority in any school district must be submitted to the qualified electors at the next regular election upon resolution of the school board or upon the filing with the school board of a petition containing the signatures of qualified electors of the district equal in number to twenty percent of the number of persons enumerated in the school census for that district for the most recent year such census was taken, unless such census is greater than four thousand in which case only fifteen percent of the number of persons enumerated in the school census is required. However, not fewer than twenty-five signatures are required unless the district has fewer than twenty-five qualified electors, in which case the petition must be signed by not less than twenty-five percent of the qualified electors of the district. In those districts with fewer than twenty five qualified electors, the number of qualified electors in the district must be determined by the county superintendent for such county in which such school is located. However, the approval of discontinuing either such authority does not affect the tax levy in the calendar year in which the election is held. The election must be held in the same manner and subject to the same conditions as provided in this section for the first election upon the question of authorizing the mill levy.

A school district may levy an annual tax for the general fund purposes listed in section 57-15-14.2 in an amount not exceeding three and one-half percent more than the amount in dollars which the school district levied for general fund purposes in the school district's base year.

1. A school district may levy an amount exceeding the limitation in this section upon approval by a majority of the electors voting on the question at a regular or special school district election. A question may be placed on the ballot for increased levy authority by motion approved by the school board. A question on the ballot for increased levy authority under this section must show the amount and percentage increase in dollars for which voter approval is requested and specify the years for which the increase will

- apply. Increased levy authority under this subsection may not be approved for more than five years.
- 2. The general fund levy limitation under this section applies to every school district, including a school district for which electors approved increased or unlimited levy authority before July 1, 2007.
- 3. For purposes of this section:
  - a. "Base year" means the school district's taxable year with the highest amount levied in dollars for general fund purposes of the three taxable years immediately preceding the budget year. For a reorganized school district, "base year" includes the general fund levy in dollars as approved by the electors in the reorganization plan.
  - b. "Budget year" means the school district's taxable year for which the general fund levy is being determined under this section.
  - c. "Calculated general fund mill rate" means the mill rate that results from dividing the base year general fund taxes levied by the sum of the taxable value of the taxable property in the base year plus the taxable value of the property exempt by local discretion or charitable status, calculated in the same manner as the taxable property.
  - d. "Property exempt by local discretion or charitable status" means property exempted from taxation as new or expanding businesses under chapter 40-57.1; improvements to property under chapter 57-02.2; or buildings belonging to institutions of public charity, new single-family residential or townhouse or condominium property, property used for early childhood services, or pollution abatement improvements under section 57-02-08.
- 4. Before determining the levy limitation under this section, the dollar amount levied in the base year must be:
  - a. Reduced by an amount equal to the sum determined by application of the base year's calculated general fund mill rate for that school district to the final base year taxable valuation of any taxable property and property exempt by local discretion or charitable status which is not included in the school district for the budget year but was included in the school district for the base year.
  - b. Increased by an amount equal to the sum determined by the application of the base year's calculated general fund mill rate for that school district to the final budget year taxable valuation of any taxable property or property exempt by local discretion or charitable status which was not included in the school district for the base year but which is included in the school district for the budget year.

**SECTION 6. AMENDMENT.** Section 57-15-31 of the North Dakota Century Code is amended and reenacted as follows:

**57-15-31. Determination of levy.** The amount to be levied by any county, city, township, school district, park district, or other municipality authorized to levy taxes shall be computed by deducting from the amount of estimated expenditures for the current fiscal year as finally determined, plus the required reserve fund determined upon by the governing board from the past experience of the taxing district, the total of the following items:

- 1. The available surplus consisting of the free and unencumbered cash balance.
- 2. Estimated revenues from sources other than direct property taxes.
- 3. The total estimated collections from tax levies for previous years.
- 4. Such expenditures as are to be made from bond sources.
- 5. The amount of distributions received from an economic growth increment pool under section 57-15-61.

Allowance may be made for a permanent delinquency or loss in tax collection not to exceed five percent of the amount of the levy.

**SECTION 7. AMENDMENT.** Section 57-20-03 of the North Dakota Century Code is amended and reenacted as follows:

57-20-03. Form of tax list. The tax list must be made out to correspond with the assessment books as respects ownership and description of property, with columns for the valuation and for the various items of tax included in the total amount of all taxes set down opposite such description of property. The tax list must include the mailing address for the owner of each parcel of property. If the owner is an individual or more than one individual and the mailing address is not the individual's or individuals' primary residence, the tax list must also include the individual's or individuals' primary residence address. The amounts of special taxes must be entered in appropriate columns, but the general taxes may be shown by entering the rate of each tax at the head of the proper column without extending the same, in which case a schedule of the rates of such taxes must be made on the first page of each tax list. The tax lists also must show, in a separate column, the years for which any piece or parcel has been sold for taxes, if the same has not been redeemed or deeded for such taxes.

**SECTION 8. AMENDMENT.** Section 57-20-04 of the North Dakota Century Code is amended and reenacted as follows:

**57-20-04.** Abstract of tax list to be sent to tax commissioner. The county auditor, on or before December thirty-first following the levy of the taxes, shall make and transmit to the state tax commissioner, in such form as the tax commissioner may prescribe, a complete abstract of the tax list of the auditor's county. On or before December twenty-sixth of each year, the county treasurer shall mail a real estate tax statement to the owner of each parcel of real property at the owner's last-known address. The statement must be provided in a manner that allows the taxpayer to retain a printed record of the obligation for payment of taxes and special assessments as provided in the statement. If a parcel of real property is owned by more than one

individual, the county treasurer shall send only one statement to one of the owners of that property. Additional copies of the tax statement will be sent to the other owners upon their request and the furnishing of their names and addresses to the county treasurer. Such tax statements The tax statement must include a dollar valuation of the true and full value as defined by law of the property and the total mill levy applicable. The tax statement must include, or be accompanied by a separate sheet, with three columns showing, for the taxable year to which the tax statement applies and the two immediately preceding taxable years, the property tax levy in dollars against the parcel by the city, county, and school district and the amount of legislative tax relief credit that applies against the school district levy for the parcel under section 57-01-20. Failure of an owner to receive a statement will not relieve that owner of liability, nor extend the discount privilege past the February fifteenth deadline.

**SECTION 10. AMENDMENT.** Section 57-20-09 of the North Dakota Century Code is amended and reenacted as follows:

**57-20-09. Discount for early payment of tax.** Except as provided in section 57-20-21.1, the county treasurer shall allow a five percent discount to all taxpayers who shall pay all of the real estate taxes levied on any tract or parcel of real property in any one year in full on or before February fifteenth prior to the date of delinquency. Such discount applies, after deduction of any credit allowed under section 57-01-20, to the net remaining amount of all general real estate taxes levied for state, county, city, township, school district, fire district, park district, and any other taxing districts but does not apply to personal property taxes or special assessment installments. Whenever the board of county commissioners, by resolution, determines that an emergency exists in the county by virtue of weather or other catastrophe, it may extend the discount period for an additional thirty days.

- f. For an individual who is not a resident of this state for the entire year, or for a nonresident estate or trust, the tax is equal to the tax otherwise computed under this subsection multiplied by a fraction in which:
  - (1) The numerator is the federal adjusted gross income allocable and apportionable to this state; and
  - (2) The denominator is the federal adjusted gross income from all sources reduced by the net income from the amounts specified in subdivisions a and b of subsection 2.

In the case of married individuals filing a joint return, if one spouse is a resident of this state for the entire year and the other spouse is a nonresident for part or all of the tax year, the tax on the joint return must be computed under this subdivision.

g. For taxable years beginning after December 31, 2001, the tax commissioner shall prescribe new rate schedules that apply in lieu of the schedules set forth in subdivisions a through e. The new schedules must be determined by increasing the minimum and maximum dollar amounts for each income bracket for which a tax is imposed by the cost-of-living adjustment for the taxable year as determined by the secretary of the United States treasury for purposes of section 1(f) of the United States Internal Revenue Code of 1954, as amended. For this purpose, the rate applicable to each income bracket may not be changed, and the manner of applying the cost-of-living adjustment must be the same as that used for adjusting the income brackets for federal income tax purposes.

**SECTION 13. AMENDMENT.** Section 57-55-04 of the North Dakota Century Code is amended and reenacted as follows:

57-55-04. Taxes - How determined - Disbursement. The director of tax equalization shall determine the tax for each mobile home by placing an evaluation on the mobile home based upon its assessed value and by adjusting the valuation of the mobile home by the percentage provided in section 57-02-27 to determine its taxable valuation under standards and guides determined by the state tax commissioner and applying that evaluation to the preceding year's total mill levies applying to property within the taxing district in which the mobile home is located. The county treasurer shall provide a tax statement for each mobile home subject to taxation under this chapter, including three columns showing, for the taxable year to which the tax statement applies and the two immediately preceding taxable years, the property tax levy in dollars against the mobile home by the city, county, and school district and the amount of legislative tax relief credit that applies against the school district levy for the mobile home under section 57-01-20. If a mobile home is acquired or moved into this state during the calendar year and a tax permit has not been previously issued for such mobile home in this state for such year, the tax is determined by computing the remaining number of months of the current year to the nearest full month and multiplying that number by one-twelfth of the amount which would be due for the full year. The taxes collected under this chapter must be disbursed in the same year they are collected and in the same manner as real estate taxes for the preceding year are disbursed.

**SECTION 14. APPROPRIATION.** There is appropriated out of any moneys in the permanent oil tax trust fund in the state treasury, not otherwise appropriated, the sum of \$80,000,000, or so much of the sum as may be necessary, to the state treasurer to be allocated in equal amounts in each year of the biennium for legislative tax relief credit payments to school districts under section 57-01-20, for the biennium beginning July 1, 2007, and ending June 30, 2009.

SECTION 15. LEGISLATIVE INTENT - LEGISLATIVE COUNCIL STUDY. It is the intent of the sixtieth legislative assembly that enactment of this Act will initiate an increase in the state's share of elementary and secondary education funding to secure immediate and future benefits to the citizens of the state. These benefits include relief from the expanded property tax burden that has created disparity within the tax structure of the state, enhanced equity of funding to support elementary and secondary education students, enduring property tax reductions, and returning to taxpayers a substantial measure of revenue collections augmented by a robust state economy. It is the further intent of the sixtieth legislative assembly that enactment of this Act will produce a reduction in property tax burdens which, with continued efforts of future legislative assemblies, will result in reduction of each annual property tax bill to an amount that is not more than one and one-half percent of the true and full value for any parcel of property.

The legislative council shall study, in each legislative interim through 2012, compliance with, and future funding sources for, the shift in education funding and taxation policy initiated by enactment of this Act. The legislative council shall report its findings and recommendations, together with any legislation necessary to implement the recommendations, to each subsequent legislative assembly.

**SECTION 16. EFFECTIVE DATE.** Sections 1 through 11 and 13 of this Act are effective for taxable years beginning after December 31, 2006, for ad valorem property taxes and for taxable years beginning after December 31, 2007, for mobile home taxes. Section 12 of this Act is effective for taxable years beginning after December 31, 2006."
