2A. **Bill and fiscal impact summary:** *Provide a brief summary of the measure, including description of the provisions having fiscal impact (limited to 300 characters).*

HB 1400 is the public school district funding and policy plan incorporating the recommendations from the ND Commission on Education Improvement.

B. Fiscal impact sections: *Identify and provide a brief description of the sections of the measure which have fiscal impact. Include any assumptions and comments relevant to the analysis.*

The Executive Budget Recommendation and HB 1013, as introduced, added \$116,760,000 to K-12 public school funding. The House amended that amount to \$110,100,000. The Senate changes K-12 funding to a total of \$109,800,000.

The accounting for the \$109,800,000 recommended by the Senate is as follows:

99 million State School Aid (HB 1013):

-->84.44 million for the main funding formula.

-->1.00 million for required assessments.

-->2.60 million for regional education associations (through a factor in formula).

-->3.68 million for one student contact day on the school calendar. Begins the second year.

-->3.78 million for student performance strategists. Begins the second year.

-->2.70 million for career advisors. Begins the second year.

-->.40 million for regional education associations (grants).

-->.40 million for gifted and talented programs (grants).

10.00 million Transportation grants (HB 1013).

-2.00 million for Special Education Contracts (HB 1013).

2.30 million for a teacher support program (HB 1400).

.50 million for national board certification fund (HB 1400).

The increases projected for the 2011-2013 biennium are based on the cost to maintain the funding level established in the second year of the 2009-2011 biennium. Included in 2011-2013 is a \$6 million estimate to fund the North Dakota Scholarships provided for in Section 17 that will begin in 2011-12 and \$11 million for delayed implementation of the "At Risk" factor that becomes effective July 1, 2011.

NOTE: The Senate amendments add one professional day to the school calendar beginning with the 2010-11 school year. Funding was not specifically identified for that purpose as was the student contact day. The estimated cost of one professional day is \$2 million (\$45,000 average salary divided by 180 calendar days times 8,000 licensed teachers).
