

HOUSE BILL NO. 1210

Introduced by

Representatives Belter, Amerman, Silbernagel, Wall, J. Kelsh, Williams

Senators G. Lee, Luick, Dotzenrod

1 A BILL for an Act to create and enact a new section to chapter 61-02 of the North Dakota
2 Century Code, relating to payments in lieu of taxes to a school district for which the property tax
3 base was diminished by acquisition of property for a flood control project.

4 **BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:**

5 **SECTION 1.** A new section to chapter 61-02 of the North Dakota Century Code is created
6 and enacted as follows:

7 **Flood control project funding - Allocation of payments in lieu of taxes for loss of tax**
8 **base caused by acquisition of property in impacted school district.**

9 The ~~state water commission~~ flood control project authority annually shall make payments
10 pursuant to this chapter, subject to legislative appropriations, to adversely affected school
11 districts in which property subject to valuation is located.

12 1. The payments are in lieu of taxes that otherwise would be available to the school
13 districts if the real property upon which these payments are based was not ~~acquired:~~

14 a. ~~Acquired~~ by the state, the United States, a political subdivision of this state, or
15 other tax-exempt entity for a flood diversion channel project; or

16 b. ~~Assigned a reduced true and full valuation from its 2011 true and full valuation~~
17 which was done primarily because of the effects or anticipated effects of a flood
18 diversion channel or flood control project.

19 ~~1.2.~~ For purposes of this section:

20 a. "Adversely affected school district" means a school district that, by reason of the
21 ~~acquisition of property subject to valuation by an entity exempt from property~~
22 ~~taxes for a flood diversion channel project, would lose a portion of its effect of~~
23 events described in subsection 1, has had a significant reduction in taxable
24 valuation of property within the school district.

1 b. "Flood control project authority" means the political subdivision or entity with land
2 acquisition authority for execution of a diversion or flood control project with state
3 funding assistance.

4 c. "Property subject to valuation" means ~~real~~:

5 (1) Real property acquired by the state, the United States, or a political
6 subdivision of this state, or other tax-exempt entity for use in a flood
7 diversion channel project but does not include any of that property being
8 assessed for ad valorem taxation to the owner or occupant; or

9 (2) The amount determined by subtracting the current true and full valuation of
10 property described in subdivision b of subsection 1 from that property's true
11 and full valuation for 2011.

12 2.3. For the purpose of making payments in lieu of taxes under this section, all property
13 subject to valuation under this section must be assessed and valued in the same
14 manner as other real property in this state is assessed and valued for tax purposes,
15 except the taxable valuation for the property subject to valuation may not be less than
16 the taxable valuation of the property for taxable year 2011, ~~before the property was~~
17 ~~acquired by the state, the United States, a political subdivision of this state, or other~~
18 ~~tax-exempt entity.~~ The county auditors of the counties in which the property is located,
19 before June thirtieth of each year, shall give notice in writing to the ~~state water-~~
20 ~~commission~~ flood control project authority and tax commissioner of the value placed
21 upon the property subject to valuation as finally equalized for taxable year 2011 and
22 the most recent subsequent taxable year.

23 3.4. Upon equalization by the state board of equalization, if requested by the ~~state water-~~
24 ~~commission~~ flood control project authority, of the value placed upon the property
25 subject to valuation, the ~~state water-~~ ~~commission~~ flood control project authority shall
26 compute the payments due to the school districts in which property subject to
27 valuation is located by extending the mill levies which apply to other taxable property
28 in the school districts in which the property is located. The mill levies must be
29 extended against the property subject to valuation in the same manner as used for
30 other taxable property in the school districts, except the minimum amount determined
31 for taxable valuation of property subject to valuation under this section must be

1 substituted, if applicable. The payments due to each school district are the amount
2 determined as provided in this section.
3 4.5. After computing the payments due to each school district, the ~~state water-~~
4 ~~commission~~flood control project authority shall remit to the school districts the
5 amounts due, on or before March first of the succeeding year after the assessments
6 and valuations were made.
