

Sixty-third
Legislative Assembly
of North Dakota

REENGROSSED SENATE BILL NO. 2353

Introduced by

Senators Miller, Dotzenrod, Oehlke, Unruh

Representative Gruchalla

1 A BILL for an Act to create and enact two new sections to chapter 37-17.3 of the North Dakota
2 Century Code, relating to statewide integrated radio communication; to provide for a legislative
3 management study; and to provide an appropriation.

4 **BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:**

5 **SECTION 1.** A new section to chapter 37-17.3 of the North Dakota Century Code is created
6 and enacted as follows:

7 **Legislative declaration - Statewide integrated radio communication system service.**

8 The legislative assembly finds that effective radio communication is vital to public safety
9 and effective emergency response and law enforcement and declares that a statewide
10 integrated radio communication system will more effectively serve the goals of law enforcement
11 and emergency response personnel and thereby better serve the people of North Dakota.
12 Existing radio systems operated by local jurisdictions serve those jurisdictions adequately, but
13 do not provide the protection and benefits to the citizens of North Dakota that new digital
14 networks being utilized in neighboring states offer.

15 **SECTION 2.** A new section to chapter 37-17.3 of the North Dakota Century Code is created
16 and enacted as follows:

17 **Statewide interoperability board.**

- 18 1. The statewide interoperability board consists of:
- 19 a. The director of state radio or a designee;
 - 20 b. The director of the division of homeland security or a designee;
 - 21 c. The superintendent of the highway patrol or a designee;
 - 22 d. The adjutant general or a designee;
 - 23 e. The director of the department of transportation or a designee;
 - 24 f. A representative of the North Dakota sheriff's and deputies association;

- 1 g. A representative of the North Dakota emergency managers association;
- 2 h. A representative of the North Dakota fire chiefs association;
- 3 i. A representative of the North Dakota emergency medical services association;
- 4 j. A representative of the North Dakota police chiefs association;
- 5 k. A representative of the North Dakota 911 association; and
- 6 l. The North Dakota chief information officer or a designee.
- 7 2. The board shall elect a chairman and vice chairman for terms of two years upon its
- 8 initial meeting. The adjutant general shall call and convene the initial meeting.
- 9 3. The board shall provide for key components and provide for support of key
- 10 components necessary to support the deployment of a statewide integrated radio
- 11 communication system and shall provide for financial and technical assistance to local
- 12 jurisdictions to transition to the system.
- 13 4. The board shall manage a statewide integrated radio system with due consideration
- 14 for all stakeholders reliant upon a radio communication system.

15 **SECTION 3. LEGISLATIVE MANAGEMENT STUDY.** During the 2013-15 biennium, to
16 assist with the development of a statewide interoperability plan, the legislative management
17 shall study issues relating to the development of the current radio communication plan, its costs
18 and components, and evolving technologies that will better serve the public. The study must
19 include the input of stakeholders statewide, including local city, local county, and state public
20 service and public safety entities, including those members represented on the board.

21 **SECTION 4. APPROPRIATION.** There is appropriated out of any moneys in the general
22 fund in the state treasury, not otherwise appropriated, the sum of \$100,000, or so much of the
23 sum as may be necessary, to the adjutant general to provide a grant to the statewide
24 interoperability board for the purpose of purchasing necessary equipment at the state level to
25 begin development of the statewide integrated radio communication program and to purchase
26 project 25 standards-based centralized core dispatch equipment to integrate into a statewide
27 dispatch network open to all city, county, and state agencies within North Dakota, for the
28 biennium beginning July 1, 2013, and ending June 30, 2015. The statewide interoperability
29 board shall allocate funds through grant requests solicited, reviewed, and approved by the
30 statewide interoperability board in a manner that will most effectively move the state toward an
31 integrated radio communication system.
