**BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:**

**SECTION 1. AMENDMENT.** Section 11-23-01 of the North Dakota Century Code is amended and reenacted as follows:

**11-23-01. Officers required to furnish commissioners with departmental budget.**

1. Every officer in charge of any institution, office, or undertaking supported wholly or in part by the county shall file with the board of county commissioners a departmental budget that is prescribed by the state auditor. The departmental budget must include an itemized statement of the estimated amount of money that will be required for the maintenance, operation, or improvement of the institution, office, or undertaking for the ensuing year. The board of county commissioners may require additional information to clarify the departmental budget.
2. a. The departmental budget submitted by the county social service board in 2015 for the 2016 budget may not exceed an amount determined using the departmental budget submitted in 2014 by the county social service board as a starting point, subtracting the reduction in the county's social service funding responsibility for 2014 derived from transferring the county social service costs identified in this subdivision from the county social service board to the department of human services, and applying to the resulting amount the percentage salary and benefits increase provided by legislative appropriations for state employees for taxable year 2015. For purposes of this subdivision, the reduction in the county's social service funding responsibility derived from transferring the county social service costs identified in this subdivision from the county social service board to the department of human services includes the following:
  - (1) Foster care and subsidized adoption costs that would have been paid by the county after December 31, 2015;
  - (2) The county's share of grant costs for medical assistance in the form of payments for care furnished to recipients of therapeutic foster care services which would have been paid by the county after December 31, 2015;
  - (3) The county's share of the costs for service payments to the elderly and disabled which would have been paid by the county after December 15, 2015;

- (4) The county's share of salary and benefits for family preservation services pursuant to section 50-06-05.8 which would have been paid by the county after December 31, 2015;
  - (5) The county's share of the cost of the electronic benefits transfers for the supplemental nutrition assistance program which would have been paid by the county after December 31, 2015; and
  - (6) The computer processing costs which would have been paid by the county after December 31, 2015, which exceed the county's costs of operation of the technical eligibility computer system in calendar year 1995 increased by the increase in the consumer price index for all urban consumers (all items, United States city average) after January 1, 1996.
- b. The departmental budget submitted by the county social service board in 2016 for the 2017 budget may not exceed an amount determined using the 2015 departmental budget as a starting point and applying to that amount the percentage salary and benefits increase provided by legislative appropriations for state employees for 2016.
  - c. The budget must include a statement identifying the total savings to the county as shown by a reduction in the amounts that otherwise would have been paid by the county to the department of human services for the costs identified in subdivision a. The department of human services shall determine the appropriate amount of what each county's costs would have been to help identify each county's total savings.

The county share of the human service budget must be funded entirely from the county's property tax levy for that purpose and the county may not use funds from any other source to supplement the human services budget, with the exception that the county may make use of the identifiable amount of other sources the county has used to supplement its human services budget for 2015 and the county may use grant funds that may be available to the county under section 50-06-20.1.

- d. The department of human services shall develop a process to review a request from a county social service board for any proposed increase in staff needed as a result of significantly increased caseloads for state-funded human services programs, if the increase in staff would result in the county exceeding the budget limitation established under this subsection. As part of its review process, the department shall review countywide caseload information and consider the option of multicounty sharing of staff. If the department approves a request for a proposed increase in staff, the county budget limitation established under subdivision b may be increased by the amount determined necessary by the department to fund the approved additional staff.
