

**Greater North Dakota Chamber
SB 2220
Senate – Industry, Business and Labor
Representative Klein - Chair
January 26, 2021**

Mr. Chairman and members of the committee, my name is Amanda Remyse and I am here today representing the Greater North Dakota Chamber. GNDC is North Dakota's largest statewide business advocacy organization. We stand in support of SB 2220 and ask for a do pass.

GNDC supports this bill, permitting alcohol sales and dispensing on Sunday morning, as it provides businesses the option and control over their own operations. The passage of this bill would allow businesses to profit from alcohol sales if they so choose.

From GNDC's perspective, not only is this an opportunity for our border cities' businesses to be competitive, but it ensures all North Dakota businesses are being given choices on how they conduct their business and serve their customers.

The GNDC encourages a do pass on SB 2220.

Mr. Chairman this concludes my remarks, and I would be happy to stand for any questions you have.
