

Members of the House Human Services Committee,

My name is Karen Krenz and I reside in District 1. I am asking that you please render a DO PASS on House Bill 1200.

A student's right to bodily autonomy and freedom to make his/her own medical and health decisions should not be infringed upon by any institution, including colleges and universities, particularly when these institutions are not accountable for any injuries that may happen as a result of mandating experimental vaccines that have been shown to cause serious adverse effects.

Please protect schoolchildren from the dangerous and unnecessary COVID-19 vaccines by ensuring that it is not included in the recommended school vaccination schedule.

Thank you for your consideration of this important issue and for your service to the state of North Dakota.

Karen Krenz
