

Dear Senate Education Committee Members,

My name Marie Vetter, and I reside in District 18. I am a parent who has chosen to enroll my child in a non-public school. I support HB 1532 because my child's non-public school serves my child's needs and has positively impacted my child. We make a financial sacrifice by sending our child to a non-public school and continue to pay taxes to support the public schools. The tax reimbursement will help my family and support parents in the state of North Dakota. I urge you to vote IN FAVOR of HB 1532.

Respectfully,

Marie Vetter
