40-29-01. Width, materials, and manner of construction of sidewalks prescribed by ordinance.

The governing body, by ordinance, shall prescribe the width of sidewalks and may establish different widths in different locations. The governing body shall determine and prescribe the kind and quality of material of which and the manner in which sidewalks shall be constructed, taking into consideration the business and the amount of travel in the vicinity of each sidewalk. The ordinance shall be specific, and all contracts for the construction of sidewalks shall be let with reference thereto.

40-29-02. Duty of property owners to maintain sidewalks.

The owner of any lot or parcel of land adjoining any street, lane, or alley in any incorporated municipality shall construct, reconstruct, and maintain in good repair such sidewalks along the street, lane, or alley adjacent to the owner's lot or parcel of land as have been constructed by the municipality or as have been ordered constructed by ordinance. Such sidewalks shall be of the material and width and upon the place and grade specified in the ordinance.

40-29-03. Notice to construct, rebuild, or repair sidewalks.

Except as otherwise provided in this chapter, if the governing body deems it necessary to construct, rebuild, or repair any sidewalk in the municipality, it shall notify each owner of record at the last address shown in the recorder or the county treasurer or occupant of any lot or parcel of land that would be benefited by the sidewalk to construct, rebuild, or repair the same at the owner's own expense and subject to the approval of the street commissioner or city engineer, within the time designated in the notice. The notice must be directed in the manner hereinbefore provided to the owner of record or occupant and must set forth what work is to be done, the character of the same as specified in the ordinance, and the time within which the owner is required to do the work. The work must be done to the satisfaction of the street commissioner or city engineer. The notice may be general as to the owner of record or occupant but must be specific as to the description of the lot or parcel of ground to be benefited by the sidewalk that is to be built or repaired. The street commissioner or city engineer shall serve such notice by certified mail or delivering a copy thereof to the occupant or owner of record of each lot or parcel of occupied land described in the notice, or as to the occupant by leaving a copy thereof at the dwelling house upon such lot or parcel of land with some person over the age of fourteen years residing therein. If any lot or parcel of land is not occupied and service by mail is deemed impractical, the commissioner or city engineer may serve the notice by posting a copy thereof in a conspicuous place therein or immediately in front thereof. If such sidewalk is not repaired within the time fixed in such notice, the street commissioner or city engineer, as soon as practicable, shall repair the same and certify the cost thereof, with the person's return of service of the notice, to the city auditor, and the cost of such repairs must be paid out of the sidewalk special fund.

The expense of constructing, repairing, or rebuilding the sidewalk shall include the expense of giving all notices required by the provisions of this chapter, of making assessments, and of any other nature incurred in doing such work.

The expense of constructing, repairing, or rebuilding sidewalks must be assessed against the lots or parcels of land benefited by the sidewalk by the city engineer, or by the street

The city auditor shall cause such assessment, together with a notice of the time when and place where the governing body will meet to consider the approval thereof, to be published in one issue of the official newspaper of the city at least ten days prior to the meeting of the governing body at which the approval of the assessment will be considered.
