4-12-09-02. Limited competitive procurements.

1. Competition may be limited pursuant to North Dakota Century Code section 54-44.4-05 under circumstances in which the deviation from the procurement procedures to limit competition is determined to be appropriate, including:
   a. When products or services exclusive to particular individuals or business entities are required and competition for the proprietary product or service exists;

2. A noncompetitive procurement is not justified on the basis of any of the following circumstances:
   a. The lack of adequate advance planning for the procurement of the required commodities or services;
   b. Delays in the procurement caused by administrative delays, lack of sufficient procurement personnel, or improper handling of procurement requests or competitive procedures; or
   c. Pending expiration of budget authority.

3. Whenever noncompetitive procurements are to be made, a written determination must include an explanation as to why it is not practicable to award a contract by a competitive procurement method and why a noncompetitive procurement is in the best interest of the state. The purchasing agency shall provide evidence necessary for an independent examination and determination of the material facts of the procurement.

If the circumstance does not meet the provisions of North Dakota Century Code section 54-44.4-02, a determination to limit or waive competition must be made.

3. The purchasing agency shall limit the quantity of commodities or services being purchased to that necessary to meet the emergency circumstance.

4. The purchasing agency shall prepare a written determination for the use of emergency procurement procedures, including an explanation as to why emergency conditions exist, a description of the required commodities or services, and evidence necessary for the independent examination and determination of the material facts of the procurement.

1. A purchasing agency may issue a notice of intent to make a limited competitive or noncompetitive purchase to determine if other sources are available and if such an award is appropriate.

2. When considering a request by a purchasing agency to make a limited competitive or noncompetitive purchase, the office of management and budget may require the purchasing agency to issue a notice to determine if such an award is appropriate.

3. The notice must include the name of the purchasing agency and the procurement officer, a description of the needed commodity or service, a description of the intended procurement method, and a statement that vendors are permitted to submit bids or proposals for equivalent commodities or services.

4. The notice of intent to limit or waive competition must be placed on the office of management and budget procurement information website, must be issued to approved vendors on the bidders list for the commodity or service being purchased, and may be sent to other known potential bidders.

5. The purchasing agency shall allow a minimum of seven calendar days after issuance of the notice for interested parties to submit a response to the notice.

6. If no response to the notice is received, the purchasing agency shall submit the notice and results as justification for the limited competitive or noncompetitive purchase.

7. If an interested party responds to the notice, the purchasing agency shall evaluate the response.
   a. If the offered product or service is not responsive to the requirements, the procurement officer shall send written notice, including the reason for rejection.
