75-03-10-08. Staffing and group size requirements.

1. The number of staff members and their responsibilities must reflect program requirements and individual differences in the needs of the children enrolled, and may permit mixed-age groups, if necessary. Service personnel engaged in housekeeping and food preparation may not be counted in the child to staff ratio for periods of time when they are engaged in housekeeping or food preparation.

2. a. The operator shall ensure that the center is sufficiently staffed at all times to meet the child to staff ratios for children in attendance and that no more children than the licensed capacity are served at one time. The minimum ratio of staff members responsible for caring for or teaching children to children in child care centers and maximum group size of children must be:

   (1) For children less than eighteen months of age, one staff member may care for four children, a ratio of .25 in decimal form, with a maximum group size of ten children;

   (2) For children eighteen months of age to thirty-six months of age, one staff member may care for five children, a ratio of .20 in decimal form, with a maximum group size of fifteen children;

   (3) For children three years of age to four years of age, one staff member may care for seven children, a ratio of .14 in decimal form, with a maximum group size of twenty children;

   (4) For children four years of age to five years of age, one staff member may care for ten children, a ratio of .10 in decimal form, with a maximum group size of twenty-five children;

   (5) For children five years of age to six years of age, one staff member may care for twelve children, a ratio of .08 in decimal form, with a maximum group size of thirty children; and

   (6) For children six years to twelve years of age, one staff member may care for twenty children, a ratio of .05 in decimal form, with a maximum group size of forty children.

b. When there are mixed-age groups in the same room, the operator shall ensure:

   (1) The maximum group size is consistent with the:

      (a) Age of the majority of the children; or

      (b) Highest number of children in the youngest age group;

   (2) When children age zero to eighteen months are in the mixed-age group, the maximum group size does not exceed ten children;

   (3) The mixed-age group does not exceed the acceptable ratio pursuant to subdivision d of subsection 2 of section 75-03-10-08 and the maximum number of children per staff member pursuant to subdivision a of subsection 2 of section 75-03-10-08; and

   (4) If the mixed-age group contains the maximum number of children per staff member pursuant to subdivision a of subsection 2 of section 75-03-10-08, the mixed-age group may only contain additional older children.

c. When there is a mixed-age group, the number of children in each age category is multiplied by the corresponding ratio number, converted to decimal form, and carried to
the nearest hundredth. To determine the number of staff members responsible for caring for or teaching children necessary at any given time, numbers of staff members for all age categories are added, and any fractional staff member count is then rounded to the next highest whole number whenever the fractional staff member count amounts to thirty-five hundredths or more. If lower than thirty-five hundredths, the fractional amount is dropped.

3. If a child with special needs is admitted to the child care center, the child's developmental age level must be used to determine into which age group the child should be placed for determining child to staff ratios.

4. The operator shall ensure that a child with special needs requiring more than usual care and supervision has adequate care and supervision without adversely affecting care provided to the other children in the child care center.

5. An operator licensed for at least two years may apply for a waiver of the required ratio and maximum group size, not to exceed .25 decimal point per group. The department shall consider demonstration of need, health and safety of children, age of children, number of children, and licensing history of the operator in determining whether to approve the application for a waiver. The department may deny an application for waiver and may revoke a waiver granted under this subsection. The decision to deny or revoke a waiver is not an appealable decision. The department shall review each waiver granted under this subsection annually to determine if the circumstances which led to granting the waiver continue to exist.

1. An applicant, operator, director, or supervisor may not be, and a child care center may not employ or allow, in any capacity that involves or permits contact between the emergency designee, substitute staff member, or staff member and any child cared for by the child care center, an operator, emergency designee, substitute staff member, director, supervisor, or staff member who has been found guilty of, pled guilty to, or pled no contest to:

c. An offense other than an offense identified in subdivision a or b, if the department in the case of a child care center applicant, operator, director, or supervisor, or the operator in the case of an emergency designee, substitute staff, or staff member, determines that the individual has not been sufficiently rehabilitated. An offender's completion of a period of five years after final discharge or release from any term of probation, parole, or other form of community corrections or imprisonment, without subsequent charge or conviction, is prima facie evidence of sufficient rehabilitation.

2. The department has determined that the offenses enumerated in subdivisions a and b of subsection 1 have a direct bearing on the applicant's, operator's, emergency designee's, substitute staff member's, director's, supervisor's, or staff member's ability to serve the public as an operator, emergency designee, substitute staff member, director, supervisor, or staff member.

4. The operator shall establish written policies and engage in practices that conform to those policies to effectively implement this section before hiring any staff member.

5. An operator shall submit an application for a fingerprint-based criminal history record check at the time of application and within five years from the date of initial approval and at least once every five years thereafter. The operator shall ensure that each staff member submits an application for a fingerprint-based criminal history record check upon hire and within five years from the date of initial approval and at least once every five years thereafter. The department may excuse a person from providing fingerprints if usable prints have not been obtained after two sets of prints have been submitted and rejected. If a person is excused from providing fingerprints, the department shall submit a request to the bureau of criminal investigation for a nationwide name-based criminal history record check.

6. Review of fingerprint-based criminal history record check results.

a. If an individual disputes the results of the criminal history record check required under this chapter, the individual may request a review of the results by submitting a written request for review to the department within thirty calendar days of the date of the department's memo outlining the results. The individual's request for review must include a statement of each disputed item and the reason for the dispute.
b. The department shall assign the individual's request for review to a department review panel. An individual who has requested a review may contact the department for an informal conference regarding the review any time before the department has issued its final decision.

If a confirmed determination under North Dakota Century Code chapter 50-25.1 or a similar finding in another jurisdiction which requires proof of substantially similar elements exists indicating that any child has been abused or neglected by the applicant, operator, director, supervisor, emergency designee, substitute staff member, or staff member, the applicant or operator shall furnish information satisfactory to the department, from which the department can determine the applicant's, operator's, director's, supervisor's, emergency designee's, substitute staff member's, or staff member's ability to provide care that is free of abuse and neglect. In addition to providing notice to the parent of each child, the operator shall post the correction order in a conspicuous location within the child care center until the violation has been corrected or for five days, whichever is longer.

2. Violations noted in a correction order must be corrected:
a. For a violation of North Dakota Century Code section 50-11.1-02.2; section 75-03-10-04 or 75-03-10-08; subsection 12 of section 75-03-10-09; subdivision e of subsection 1 of section 75-03-10-12; subsection 3 of section 75-03-10-12; subsection 3, 6, 9, or 10 of section 75-03-10-18; section 75-03-10-23; or subsection 1 of section 75-03-10-24, within twenty-four hours;

d. For a violation that requires substantial building remodeling, construction, or change, within sixty days; and

e. For all other violations, within twenty days.

3. All periods for correction begin on the date of receipt of the correction order by the operator.

4. The department may grant an extension of additional time to correct violations, up to a period of one-half the original allowable time allotted. An extension may be granted upon application by the operator and a showing that the need for the extension is created by unforeseeable circumstances and the operator has diligently pursued the correction of the violations.

5. The operator shall furnish a written notice to the department or its authorized agent upon completion of the required corrective action. The correction order remains in effect until the department or its authorized agent confirms that the corrections have been made.

6. At the end of the period allowed for correction, the department or its authorized agent shall reinspect a child care center that has been issued a correction order. If, upon reinspection, the department or its authorized agent determines that the child care center has not corrected a violation identified in the correction order, the department or its authorized agent shall mail a notice of noncompliance with the correction order by certified mail to the child care center. The notice must specify the violations not corrected and the penalties assessed in accordance with North Dakota Century Code section 50-11.1-07.5.

7. If a child care center receives more than one correction order in a single year, the operator may be referred by the department for consulting services to assist the operator in maintaining compliance and to avoid future corrective action.

8. Refutation process for a correction order:
