75-08-01.02. General requirements of the vocational rehabilitation program.

1. The vocational rehabilitation program assists an eligible individual with physical or mental disabilities to prepare for and achieve an employment outcome. The vocational rehabilitation process is based upon an individualized plan for employment oriented to the achievement of a suitable vocational goal. An individual with disabilities must require the service provided to minimize and accommodate the impediment to employment. Services must be reasonable and provided as cost effectively as possible.

2. The division presumes that an individual will benefit in terms of an employment outcome from vocational rehabilitation services, unless the counselor can document, on the basis of clear and convincing evidence and only after trial work experiences, that the individual is incapable of benefiting from vocational rehabilitation services in terms of an employment outcome.

3. Auxiliary aids and services will be provided at no cost to applicants or clients when they are necessary to access the vocational rehabilitation program. The purpose of auxiliary aids and services is to provide effective communications for participants in determining eligibility, assessments, and plan development.
4. Unless otherwise specified in this chapter, eligibility to participate in the vocational rehabilitation program is governed by federal vocational rehabilitation statutes and the federal procedures embodied in the rehabilitation services administration notices and policy memos. The program must conform to lawfully issued regulations and policies of the rehabilitation services administration and the division. Terms used in this chapter have the same meaning as the terms used in the regulations and policies of the rehabilitation services administration and the division, unless this chapter specifically provides otherwise.

5. The division must provide services without regard to sex, race, creed, age, color, national origin, political affiliation, or type of disability.

6. There is no residency requirement, durational or other, that may exclude an otherwise eligible individual present in the state from eligibility. For individuals who are not United States citizens, the division must verify that the individual has the necessary documentation to allow them to work.

1. An individual who has a disability or is blind as determined under title II or title XVI of the Social Security Act [42 U.S.C. 301, et seq.] and who receives social security disability insurance benefits or supplemental security income benefits is presumed to be eligible for vocational rehabilitation services if the individual intends to achieve an employment outcome.

2. An individual who receives supplemental security income benefits or social security disability insurance benefits is presumed to have a significant disability.

3. The presumption of eligibility described in this section shall be overcome if the division can demonstrate by clear and convincing evidence that the individual cannot benefit from vocational rehabilitation services in terms of an employment outcome because of the severity of the individual's disability. The demonstration that the individual cannot benefit from vocational rehabilitation services may be determined only after conducting trial work experiences as described in section 75-08-01-20.
75-08-01-18. Eligibility criteria and documentation.

1. The division must base eligibility determinations on existing data as the primary source of information to the maximum extent possible and appropriate. The individual requesting services, the family of the individual, or other sources may provide the information. An individual is eligible for vocational rehabilitation if:
   a. The individual has a mental or physical impairment;
   b. The impairment constitutes or results in a substantial impediment to employment as determined by a qualified rehabilitation professional;
   c. The individual can benefit from vocational rehabilitation services in terms of an employment outcome. An individual is presumed to be able to benefit from vocational rehabilitation services in terms of an employment outcome unless the division can demonstrate by clear and convincing evidence that the individual cannot benefit due to the severity of the disability. This demonstration that the individual cannot benefit can be determined only after conducting trial work experiences as described in section 75-08-01-20; and
   d. The individual requires vocational rehabilitation services to prepare for, secure, retain, advance in, or regain employment.

2. In all cases in which the division determines an individual eligible for services, the record of service must include documentation of eligibility, dated and signed by a qualified rehabilitation professional, which demonstrates that the individual:
   a. Has a physical or mental impairment that constitutes or results in a substantial impediment to employment; and
   b. Requires vocational rehabilitation services to prepare for, enter, retain, advance in, or regain employment.

75-08-01-19. Eligibility criteria for supported employment.

An individual is eligible for supported employment services if:

1. The individual is eligible for vocational rehabilitation services;

2. The individual is determined to have a most significant disability; and

3. A comprehensive assessment of rehabilitation needs, including an evaluation of rehabilitation, career, and job needs identifies supported employment as the appropriate employment outcome for the individual.
75-08-01-20. Trial work experiences and extended evaluation.

1. Before an individual can be determined ineligible due to the severity of a disability, the individual must receive trial work experiences and there must be a written trial workplan. The trial work must:
   a. Be sufficiently varied and over a sufficient period of time to determine eligibility or ineligibility;
   b. Show by clear and convincing evidence that the individual cannot benefit due to the severity of the disability; and
   c. Include support services such as assistive technology or personal assistance, which must be provided by the division.

2. Trial work experiences shall explore the individual's abilities, capabilities, and capacity to perform in work situations, including experiences in which appropriate supports and training are provided.

3. The division must provide assessments periodically during the trial work experiences regarding the individual's abilities, capabilities, and capacity to perform the work.

History: Effective October 1, 1995; amended effective November 1, 2002; January 1, 2019.

75-08-01-21. Ineligibility determination.

1. The division may make a determination that an individual is ineligible for vocational rehabilitation services only after providing an opportunity for full consultation with the individual or the individual's representative, as appropriate.

2. When the division determines that an individual is ineligible to receive vocational rehabilitation services, the individual or the individual's representative shall be informed of the ineligibility determination in writing, supplemented as necessary by other appropriate modes of communication consistent with the informed choice of the individual, of the ineligibility determination, including:
   a. The reasons for the determination; and
   b. A written description of the means by which the individual may express and seek a remedy for any dissatisfaction with the determination. This includes the procedures for appeal as provided in section 75-08-01-37, mediation, and the client assistance program.

3. When an ineligibility determination is based on a finding that the individual is incapable of benefiting in terms of an employment outcome due to the severity of the disability, that determination shall be reviewed by the division:
   a. Within twelve months and twenty-four months of the date of the determination of ineligibility; and
   b. After that date only if such a review is requested by the individual or the individual's representative, as appropriate.

4. Ineligibility decisions concerning the severity of a disability must be based on clear and convincing evidence and require trial work experiences as described in section 75-08-01-20 prior to closure.
75-08-01-22. Assessment for determining eligibility and vocational rehabilitation needs.

1. An assessment for determining eligibility and vocational rehabilitation needs means, as appropriate in each case, a review of existing data to determine:
   a. Whether an individual is eligible for vocational rehabilitation services;
   b. The priority for an order of selection as described in section 75-08-01-23;
   c. The necessity of appropriate assessment activities to obtain necessary additional data to make such determination and assignment;
   d. Referral, for the provision of assistive technology services to the individual, to assess and develop the capacities of the individual to perform in a work environment; and
   e. An exploration of the individual's abilities, capabilities, and capacity to perform in realistic, integrated work situations, which shall be assessed periodically during trial work experiences, including experiences in which the individual is provided appropriate supports and training.

2. To the extent additional data is necessary for the division to make a determination of employment outcomes and the nature and scope of vocational rehabilitation services to be included in the individualized plan for employment, a comprehensive assessment may be done by the division. The purpose is to determine the unique strengths, resources, priorities, concerns, abilities, capabilities, interests, and informed choice of the eligible individual, including the need for supported employment. A comprehensive assessment includes, to the maximum extent possible and appropriate and in accordance with confidentiality requirements, the following:
   a. Information that is necessary to identify the rehabilitation needs of the individual and to develop the individualized plan for employment of the eligible individual;
   b. Existing information obtained for the purposes of determining the eligibility of the individual and assigning priority for an order of selection described in section 75-08-01-23;
   c. Any information as can be provided by the individual and, when appropriate, by the family of the individual;
   d. As necessary, an assessment of the personality, interests, interpersonal skills, intelligence, and related functional capacities, educational achievements, work experiences, vocational aptitudes, personal and social adjustments, and employment opportunities of the individual, and the medical, psychiatric, psychological, and other pertinent vocational, educational, cultural, social, recreational, and environmental factors, that affect the employment and rehabilitation needs of the individual; and
   e. As necessary, an appraisal of the individual's patterns of work behavior and services needed for the individual to acquire occupational skills, and to develop work attitudes, work habits, work tolerance, and social and behavior patterns necessary for successful job performance, including the utilization of work in real job situations to assess and develop the capacities of the individual to perform adequately in a work environment.

History: Effective October 1, 1995; amended effective November 1, 2002; January 1, 2019.
75-08-01-23. Order of selection.

1. The division must provide to an individual applying for services, including an individual receiving trial work experiences, all services necessary to determine eligibility for vocational rehabilitation services and an order of selection priority classification. The division must provide these services on a timely basis in accordance with federal law.

2. When the division notifies an individual of eligibility, the division must also notify the individual of the individual's priority category and right to request mediation, appeal the assigned category, and to utilize the client assistance program.

3. If the division cannot provide services to all eligible individuals who apply due to a lack of resources, an order of selection procedure must be implemented.

   a. An individual receiving services under an individualized plan for employment must continue to receive all required services. An individual requiring or receiving postemployment services must be considered to be under an individualized plan for employment. An individual described in paragraphs 1 through 4 must be assigned a priority in the order in which the paragraphs are listed.

      (2) Category 1b: An individual with a most significant disability that seriously limits two or three functional capacities.

      (3) Category 2: An individual with a significant disability that seriously limits one or more functional capacities.

75-08-01-24. Individualized plan for employment.

An individualized plan for employment is developed for all individuals who are determined eligible for vocational rehabilitation.

1. Prior to developing the individualized plan for employment, the division must give the individual a written copy of the options for developing the plan.

2. The individualized plan for employment may be developed by the individual alone or by the individual with assistance from the division or other parties.

3. The individualized plan must be agreed to and signed by the individual or the individual's authorized representative and approved and signed by a qualified rehabilitation professional employed by the division.
4. The individualized plan for employment for eligible individuals must be developed and approved within ninety days from the date of determination of their eligibility for service.

5. The individualized plan for employment is designed to assist the individual's achievement of the vocational goal, consistent with the unique strengths, resources, priorities, concerns, abilities, capabilities, interests, and informed choice of the individual. The record of service must support the selection of the vocational goal.

6. Counselors shall provide a copy of the individualized plan for employment, and any amendments, to the individual.

7. With the exception of assessment services, the division may provide goods and services only in accord with the individualized plan for employment.

8. The individualized plan for employment is not a legal contract.

9. The division must review the individualized plan for employment at least annually in the same manner as it was originally developed and described in subsection 3.

10. The division must include in the individualized plan for employment:
    a. A specific employment outcome in an integrated setting, which must be consistent with the unique strengths, resources, priorities, concerns, abilities, capabilities, interests, and informed choice of the individual; and
    b. The specific services to be provided and the projected dates for initiation and anticipated duration of each service, including:
       (1) If appropriate, a statement of the specific assistive technology services;

       (4) The terms and conditions under which goods and services are to be provided in the most integrated settings;
       (5) The terms and conditions for the provision of services, including the individual's:
          (a) Responsibilities and the division's responsibilities;

   b. A description of the extended services necessary and identification of the state, federal, or private programs, which may include natural supports, that provide the extended support, or, to the extent that is not possible at the time the individualized plan for employment is written, a statement describing the basis for concluding that there is a reasonable expectation that those sources will become available.

75-08-01-25. Comparable services and benefits.

1. Before providing any vocational rehabilitation service, except those listed in subsection 5, to an eligible individual or to members of the individual's family, the division must determine whether comparable services and benefits exist under any other program and whether the services and benefits are available to the individual.

2. If comparable services and benefits do exist and are available to the individual at the time needed to achieve the provisions of the individualized plan for employment, they must be used to meet, in whole or in part, the cost of vocational rehabilitation services.

3. If comparable services and benefits do exist but are not available to the individual at the time they are needed, the division shall provide the services until comparable services and benefits become available.

4. The use of comparable services and benefits does not apply if such a determination would interrupt or delay:
   a. The progress of an individual toward achieving the employment outcome identified in the individualized plan for employment;
   b. An immediate job placement; or
   c. The provision of vocational rehabilitation services to an individual with disabilities who is at extreme medical risk.

5. The following categories of service do not require that comparable services and benefits be used:
   a. Assessment for determining eligibility and rehabilitation needs;
b. Counseling and guidance, including information and support services to assist in exercising informed choice;

c. Information and referral;

d. Job-related services, including job search, job placement, job retention services, followup, and follow-along services;

75-08-01-26. Determination of financial participation.

1. In all cases, the division shall encourage an individual with disabilities and the individual's family to financially contribute as much as possible to the cost of vocational rehabilitation goods and services provided as part of an individualized plan for employment. When available, comparable services and benefits must be used, as described in section 75-08-01-25, and the division must apply a financial participation threshold to specified vocational rehabilitation services. The individual's refusal to provide financial information will constitute the individual's not meeting the financial participation threshold. In that event, the individual may be unable to access the services without participating in the cost of such service.

a. If an individual is single, under the age of eighteen years, and unemancipated, the individual's income, and the income of the individual's parents, must be considered.

b. If an individual is single, under the age of eighteen years, and living with a guardian, the division shall determine financial participation based on the individual's income.

c. If an individual is single, eighteen years of age or over, but is living with a parent, the division shall determine financial participation based on the individual's income only.

d. If an individual is married, regardless of age, the division shall determine financial participation based on the income of the individual and the individual's spouse.

2. Calculation of financial participation is based on a fee schedule established and administered by the division and must be used to determine client participation. Copies of the fee schedule, which may be updated from time to time, are available from the division upon request. When determining client participation, the division must take into consideration disability-related expenses incurred by or for the individual. A vocational rehabilitation administrator may adjust or waive the client financial participation to ensure the level of an individual's participation in the cost of services is not so high as to effectively deny the individual a necessary service.

3. The division must re-evaluate financial participation annually or whenever financial or other circumstances regarding the individual significantly change, whichever occurs first. Significant change includes marriage or divorce, other changes in dependent status, radical change in income, or to the individualized plan for employment.

4. Regional vocational rehabilitation administrators may adjust or waive client financial participation. Documentation must be maintained indicating the conditions under which a waiver or adjustment is made and a copy placed in the client's file.
5. The division may not require the financial participation of any individual who receives social security disability insurance benefits or supplemental security income benefits as determined under title II or title XVI of the Social Security Act [42 U.S.C. 301, et seq.].

6. If the individual or the individual's authorized representative disagrees with the outcome of the determination of financial participation, the individual has the right to have the determination reviewed in accordance with section 75-08-01-37.

Time-limited services include:
      (1) Intensive on-the-job skills training and other training and support services necessary to achieve and maintain job stability;

1. The division may not provide postsecondary training unless maximum efforts have been made to secure grant assistance in whole, or in part, from other sources;

2. The division's participation shall not be calculated until the institution's financial aid office needs analysis has been received. The financial needs analysis award letter must identify all available aid;

3. An individual must accept all offered grant assistance;

4. An individual may choose to participate in the cost of attendance through the use of college work study and student loans;

public institution;

postsecondary training is at an in-state private or out-of-state institution, the division may fund
more than it would at an in-state public institution;

estimated financial need. For an individual not taking sufficient credit hours to apply for
financial aid, the limit is the North Dakota university system rate per credit hour;

graduation and shall otherwise demonstrate progress toward meeting the goal of the
individualized plan for employment. If the individual is placed on academic probation,
continued funding is dependent on the approval of the regional vocational rehabilitation

vocational goal is otherwise unachievable; and

A request for review is timely if the filing date of the request is no more than thirty days after notice of the determination with which the claimant is dissatisfied. If appropriate, any request for review may be made through claimant's authorized representative.

7. A claimant's appeal may not result in suspension, reduction, or termination of vocational rehabilitation services pending resolution of claimant's appeal unless:

a. The claimant or, in appropriate cases, the claimant's authorized representative, requests a suspension, reduction, or termination of services; or
b. There is evidence fraud has occurred or the vocational rehabilitation services were obtained through misrepresentation, collusion, or criminal conduct by claimant or claimant's authorized representative.

8. A claimant may request an informal review to resolve the decision under dispute without mediation or an appeal hearing. A claimant's request for informal review does not prohibit claimant of the right to an appeal hearing or mediation.

   a. A claimant may not be required to go through an informal review prior to, or instead of, an appeal hearing.

   b. A written request for an informal review must be made by claimant to division within thirty days of the determination with which claimant is dissatisfied.

   c. The informal review must be conducted by either the division's chief of field services, or a division employee appointed by the chief of field services, who has had no prior involvement in the case.

   d. An informal review must be conducted within fifteen days of the initial request unless both parties agree additional time is necessary. Informal review may not delay an appeal hearing if one has been requested. The appeal hearing must be conducted within sixty days of the claimant's request for review of a determination made by division with which claimant is dissatisfied, unless the division and the claimant agree to a specific extension of time.

   e. The informal review process, if completed, must result in a decision by the division regarding the division's determination under dispute. The division shall notify claimant by writing of the decision within ten days of the informal review, unless circumstances require additional time.

   f. If the informal review does not resolve the issue, the claimant, or authorized representative, may request an appeal hearing or mediation. The claimant shall notify division within fifteen days of the informal review decision that the claimant wishes to proceed with mediation or an appeal hearing.

9. The claimant may request mediation by a qualified and impartial mediator as a means to resolve a dispute with a decision by the division. Both parties must agree to the request. The claimant may bring an authorized representative to assist during the mediation process. A claimant's request for mediation does not prohibit claimant of the right to an appeal hearing.

   a. The request for mediation must be submitted, in writing, to the division within thirty days of the disputed decision, or within fifteen days of issuance of the informal review decision. The request shall identify the decision being disputed, why it is being disputed, and what solution is requested.

   b. A qualified and impartial mediator arranged by the division, pursuant to written division policy, must be provided at no cost to the claimant. Mediation sessions must be held in a location and manner convenient to the claimant and the division.

   c. The claimant or, if appropriate, the claimant's authorized representative, must be given the opportunity to submit evidence and other information that supports the claimant's position.

   d. Mediation may not delay the claimant's right to pursue an appeal hearing unless both parties agree additional time is necessary. The appeal hearing must be conducted within sixty days of the claimant's request for review of a determination made by division with
which claimant is dissatisfied, unless the division and the claimant agree to a specific extension of time.

e. If an agreement is reached pursuant to mediation, the consensus reached by both parties must be documented in writing by the mediator and provided to both parties. Each party shall sign the agreement, which indicates agreement with its terms and a commitment to fulfill each party's respective responsibilities. If agreement on all issues is reached, the parties shall withdraw any pending informal review or appeal hearing request.

f. At any point in the mediation process, either party may elect to terminate mediation.

g. If mediation is not successful, the claimant may request an appeal hearing regarding the decision under dispute.

h. Discussions that occur during the mediation process are confidential and may not be used as evidence in any subsequent proceedings.

i. Costs of mediation must be paid by the division. The division is not required to pay for legal or other representation for claimant.

10. A claimant may request an appeal hearing to resolve the decision under dispute without having requested or engaging in mediation or an informal review.

a. Written request for an appeal hearing must be made to division within thirty days of the determination with which the claimant is dissatisfied.

b. A hearing by an impartial hearing officer selected by the division must be conducted within sixty days of the claimant's request for review of a determination made by the division with which claimant is dissatisfied, unless resolution is achieved before that time, or the parties agree to an extension.

c. The claimant or, if appropriate, the claimant's authorized representative, must be given the opportunity to present witnesses during the hearing and to examine all witnesses and other relevant sources of information and evidence.

d. The impartial hearing officer shall:

   (1) Make a decision based on federal vocational rehabilitation regulations and state regulations and policies consistent with federal requirements; and

   (2) Provide to the claimant or, if appropriate, the claimant's authorized representative, and to the division a full written report of the findings and grounds for the decision within thirty days of the completion of the hearing.

e. The hearing officer's decision is final.
