

**CHAPTER 90-02-03
REPORTING AND INVESTIGATION**

Section	
90-02-03-01	Completion Reports Required to Be Filed
90-02-03-02	Filing Reports
90-02-03-03	In Charge - Definition
90-02-03-04	Decal Required

90-02-03-01. Completion reports required to be filed.

The secretary shall develop and maintain a supply of forms for reporting on the completion of wells as required by North Dakota Century Code section 43-35-19.

General Authority: NDCC 28-32-02, 43-35-01, 43-35-10

Law Implemented: NDCC 43-35-19

90-02-03-02. Filing reports.

The secretary shall maintain a systematic file of such reports which shall be open to inspection during normal business hours by anyone desiring to use the information contained therein.

General Authority: NDCC 28-32-02, 43-35-01, 43-35-10

Law Implemented: NDCC 43-35-19

90-02-03-03. In charge - Definition.

No person shall engage in water well construction, pump and pitless unit installation, or monitoring well construction in this state unless the certified water well contractor, pump and pitless unit installer, or monitoring well contractor whose decal is on the primary equipment shall actually be in charge of its operation. A person is in charge only when the person has actual supervisory power over the work and makes onsite inspections of the work and progress.

History: Amended effective May 1, 2002.

General Authority: NDCC 28-32-02, 43-35-01, 43-35-10

Law Implemented: NDCC 43-35-19

90-02-03-04. Decal required.

Any water well equipment, pump and pitless unit equipment, or monitoring well equipment operating in North Dakota must prominently display a decal on the primary equipment that is under the charge of a certified water well contractor, pump and pitless unit installer, or monitoring well contractor. Before beginning the operation of any water well equipment, pump and pitless unit equipment, or monitoring well equipment, the certified water well contractor, pump and pitless unit installer, or monitoring well contractor in charge shall secure from the board such a decal and cause it to be placed on the primary equipment.

History: Amended effective May 1, 2002.

General Authority: NDCC 28-32-02, 43-35-01, 43-35-10

Law Implemented: NDCC 43-35-19
