2021 HOUSE JUDICIARY

HB 1117

2021 HOUSE STANDING COMMITTEE MINUTES

Judiciary Committee Room JW327B, State Capitol

HB 1117 1/13/2021

Relating to guardian consent to involuntary treatment with prescribed medication.

Chairman Klemin called the hearing to order at 9:50AM.

Present: Representatives Klemin, Karls, Becker, Buffalo, Christensen, Cory, K Hanson, Jones, Magrum, Paulson, Paur, Roers Jones, Satrom, and Vetter.

Discussion Topics:

- Court ordered medication
- Guardian treatment
- Refusal and consequences

Gregory la Rounge: Attorney at law for Respondents in Bismarck: Introduced the bill: Testimony #628 9:51

Rep. Kathy Skroch,: Testimony # 705 10:07

Rosalie Etherington, Chief Clinics Officer, Dept. of Human Services: Testimony #663

Margo Haut, Director of Guardian Angles, Inc: Testimony #683 10:20

Cynthia Felland: District Court Judge: Will work on amendments. 10:22

Chairman Klemin closed hearing at 10:25.

HOUSE BILL NO. 1117

January 13, 2021 9:30 a.m.

Mr. Chairman and members of the House Judiciary Committee:

My name is Gregory Ian Runge. I am an attorney here in the Bismarck/Mandan area. I have been practicing law for little more than thirty years and have been practicing mental health under Section 25-03.1 of the North Dakota Century Code for that same amount of time, as well.

During this period of time I have represented, on average fifteen to twenty-five individuals a month on involuntary commitments.

I come here to speak in favor of House Bill No. 1034. As you can see, most of Bill No. 1117 pertains to changes in terminology, deleting portions of the commitment statute that were erroneous added and deleting moot portions of the commitment statute.

First, some of the changes pertain to exchanging the word "Applicant" to the word "petitioner."

Second, regarding page 3, lines16-17. There have been, on

occasion, times when a respondent refuses to appear in court and at one time, the sheriff's department forced a respondent to appear in court restrained to a wheelchair. Now, the sheriff's department will not force a respondent to appear, leaving the respondent in the hospital. This leaves respondents' counsel and the court in a dilemma, since the respondent did not waive his/her hearing, either orally or in writing as the statute requires. So, the proposed change is to allow the respondent's counsel to proceed to represent the respondent even though the respondent chooses not to be present.

Third, regarding Section 7, lines 15-17 on page 5, the presenting language is confusing. For example, the original phraseology states, "An initial order may not exceed ninety days." This can be confusing because an initial order usually follows a preliminary hearing which cannot be longer than fourteen. So, this change clarifies the language.

In the same section lines 25-31 goes back to the early 1990's when the whole commitment statute was amended. The old language sought to allow certain commitment orders to expire on their own after a certain amount of time. As you can see, this section is now moot.

Finally, in Section 9, lines 18-21 allows a respondent to appeal their case after certain types of hearing have been held. So, this amendment allows a respondent to appeal a modification order.

Gregory Ian Runge Attorney at Law Attorney for the Respondents

TESTIMONY IN OPPOSITION TO HB 1117

House Judiciary Committee

Representative Kathy Skroch

67TH LEGISLATIVE SESSION

Chairman Klemin and members of the House Judiciary Committee,

For the record, my name is Representative Kathy Skroch from District 26. I rise in opposition to HB 1117 because it repeals section 25-03.1-18.2 from Chapter 25-03.1 of NDCC.

Section 25-03.1-18.2 recognizes a <u>Guardian consent to involuntary treatment with</u> <u>prescribed medication</u>. House Bill 1365 was introduced during the 65th Legislative Session to bring clarity within Chapter 25-03.1 of NDCC. It resolved an issue which caused delays in treatment of patients suffering from mental illness. I sponsored HB 1365 to correct this problem. It was supported by parents, constituents, legislators and many professionals. Concerns about how persons suffering from mental illness are treated have been raised for decades by doctors, human service agents, lawyers, peace officers, nurses, judges, states attorneys and family members. I have worked to resolve these concerns expressed by professionals and family members whom I have met while seeking help for my own son.

My husband and I have been guardians of our adult son since 2003. For the sake of his privacy, I will only refer to him as (Bill) in this testimony. His story helps explains why guardian authority to force medication is needed in code.

(Bill) first began to exhibit hints of his later diagnosed mental illness at the age of 18. This is the typical age for the onset of Schizophrenia. The disease is also more common in males. We did not realize at the time, but he was self-medicating in an attempt to resolve headaches and strange thoughts. He experienced his first full blown psychotic episode at the age of 19. The delusion he experienced occurred in real time and space, yet he was living a nightmare so horrific that he found no other escape than suicide. His attempt failed. We received the phone call at 1:30am in the morning from an emergency room doctor who explained that a young man came in with 6" cuts down both wrists. He wondered if we were his parents.

Over the next several months and years, there were many visits to doctors who prescribed medications to treat his symptoms. He would improve then stop taking the medications thinking he was "cured". Each time the medication was interrupted the disease would strike back with vengeance; each time worse than the last. However, (Bill) insisted he did not have a disease and would refuse medications not realizing how much he was harming himself. We watched in anguish as he continued this downward spiral. Finally, in 2003 we petitioned for guardianship and were assigned full court ordered guardianship authority over much of our son's decision making. Especially critical, we were granted authority over medical decisions particularly important during his worst relapses. (Bill's) history of repeated psych-breaks and

refusal to accept medication had proven involuntary treatment at times was necessary. Yet as court appointed co-guardians with full court ordered authority for medical decisions, we were not allowed to approve the doctors requests for involuntary treatment due to confusion in century code.

HB 1365 fixed this problem with section 25-03.1-18.2 and is why I fought so hard for the passage of the bill. Guardians working with North Dakota medical professionals are now able to use this defined authority to involuntarily treat, when in their informed judgment, supported by medical history, it is in the best interest of the patient.

So much damage occurred to our son because of delays in treatment. Those delays cost hundreds of thousands of dollars to cover services provided by the courts, medical providers, law enforcement, and SSDI which could have been avoided. People with mental illness, can live normal lives, have jobs, raise families and be healthy if they stay on their medications. Since this authority was granted, we were able to work with medical professionals enabling the successful treatment and recovery plan for our son.

Here is the good news. Current law brings faster lasting recovery. Because of this law, (Bill) has turned a corner after achieving his longest lasting stability since the onset of his illness. This result is from a long-term treatment plan which included guardian oversight and at times authorization of involuntary treatment. He lives independently in a house he owns, is gainfully employed, no longer needing SSDI. He has been recognized as the most productive employee at the manufacturing facility where he works.

Section 25-03.1-18.2 is good law. HB 1117 will repeal section 25-03.1-18.2. For this reason, I ask you to oppose HB 1117. I will be voting against it.

Thank you for giving me the opportunity to speak today. I will accept questions.

Representative Kathy Skroch

District 26

Lidgerwood, ND

Testimony

House Bill No. 1117 - Department of Human Services House Judiciary Committee Representative Lawrence Klemin, Chairman January 13, 2021

Chairman Klemin, and members of the House Judiciary Committee, I am Rosalie Etherington, Chief Clinics Officer for the Human Service Centers of the Department of Human Services (Department). I am here on behalf of the Department in opposition of House Bill 1117.

The proposed repeal of section 25-03.1-18.2 of the North Dakota Century Code, Section 11 of this Bill, would eliminate a guardian authority to consent for psychiatric medications. This would be a devastating blow to rapid, effective psychiatric emergency care.

An unfortunate consequence of severe mental illness is the inability to recognize the illness exists, that symptoms are present, and that treatment is necessary. This leads to refusing prescribed medications and, over time, a worsening of symptoms and weakened response to medications. Over time the illness stops responding to medications altogether.

Guardians are best equipped to make treatment decisions for their wards. The current authority allows them to quickly do so, offering the best possible chance for rapid response to medications and reducing symptoms, reducing hospital stays, and reducing the negative effects of illness over time.

This concludes my testimony, and I am happy to answer any questions. Thank you.

House Judiciary | Representative Lawrence Klemin – Chairman Testimony per House Bill 1117 | January 13, 2021

Chairman Klemin and Members of the House Judiciary, my name is Margo Haut. I am here today to testify in opposition to House Bill 1117.

Introduction

I am Founder & Director of "Guardian Angels, Inc", a nonprofit founded in 2014 and located in Jamestown, ND. Our slogan is "Putting People First" with the vision of providing services, being available 24/7 and giving a voice to those who cannot advocate for themselves.

I am a National Certified Guardian & certified per the ND Guardianship Training. I am President & Member of GAND - Guardianship Association of ND and the ND State Affiliate & Member of the National Guardianship Association. I also am a Licensed Social Worker in ND with extensive experience via mental illness and/or treatment regimes.

Role as Guardian per Consent to Involuntary Treatment via Prescribed Medication On behalf of Guardian Angels, Inc., it a privilege to serve as Guardian for our Protected Persons.

As Guardian, the most challenging times consists of a Protected Person exhibiting out of control behaviors being a danger to self and/or other persons.

As Guardian, I have an obligation to my Protected Persons to keep them and those around them, safe from harm.

As Guardian, one option to keep our Protected Person safe consists of being admitted to the North Dakota State Hospital. Staff of the NDSH provide communication and/or treatment options on a regular basis to assist in meeting our Protected Persons overall psychiatric and/or medical needs.

As Guardian, my experience of potential consent for involuntary treatment via a prescribed medication being sought for a Protected Person at the NDSH does not occur on a regular or frequent basis. The request of potential authorization consists of extensive review and/or discussion of treatment options with the Protected Person's Medical Team of the NDSH including the potential considered medication's side effects and timeframe of the involuntary treatment via the med prior to providing consent.

As noted, Guardian Angels, Inc. launched in 2014. During our initial years, the experience our Protected Persons journeyed when deemed in potential need of involuntary treatment

via a prescribed medication consisted of lengthy timeframes sometimes days prior to the granting of authority for the administration of the medication. This resulted in our Protected Person living in anguish, at times, challenging safety for themselves and/or others providing care and supervision.

As Guardian, this Authority to provide consent for involuntary treatment via prescribed medications is taken very serious. Progress is monitored per continued communication with the Protected Person's Medical Team of the NDSH. It should be noted that our Protected Persons have experienced the discontinuation of the involuntary treatment via prescribed medication with successful transitions to less restrictive environments.

Chairman Klemin and Members of the House Judiciary, thank you for your time.

I respectfully ask the House Judiciary to oppose House Bill 1117 as it would deter the opportunity for a Guardian to assist the Protected Person in their time of need.

Jamal Omar, Committee Clerk

TESTIMONY OF REP. LAWRENCE R. KLEMIN HOUSE BILL NO. 1117 SENATE JUDICIARY COMMITTEE MARCH 17, 2021

Members of the Senate Judiciary Committee. I am Lawrence R. Klemin, Representative from District 47 in Bismarck. I am here to testify in support of HB 1117 and to introduce the bill to you.

During the 2019-2020 interim between the Sessions, the interim Judiciary Committee was assigned the responsibility to study the civil commitment law in Chapter 25-03.1 of the North Dakota Century Code, and in particular, to determine whether steps could be taken to prevent and to decrease the incidence of violence committed by persons who are mentally ill. As a result of that study, HB 1034 was introduced relating to procedural aspects of preliminary treatment and involuntary treatment hearings. HB 1034 has now passed both the House and the Senate and is awaiting House concurrence with a minor amendment made in the Senate.

After the interim Judiciary Committee had adjourned sine die, I was contacted by Bismarck attorney Greg Runge concerning some additional amendments to Chapter 25-03.1. Mr. Runge specializes in representing respondents in civil commitment proceedings and had testified before the interim Judiciary Committee during the interim study. It was too late to go back to the interim Judiciary Committee because it had adjourned, so I agreed to sponsor a bill proposing additional changes to the civil commitment law. Those changes are now contained in HB 1117 and are mainly clarification and clean up revisions to the civil commitment law.

Mr. Runge is here to testify on HB 1117 and will go through the bill to explain it to the committee. Consequently, if you have questions about HB 1117, Mr. Runge will be able to answer them.

Thank you.

Rep. Lawrence R. Klemin Chairman, House Judiciary Committee District 47, Bismarck

HOUSE BILL NO. 1117

March 17, 2021 11:00 a.m.

Madam Chairwoman and members of the Senate Judiciary

Committee:

My name is Gregory Ian Runge. I am an attorney here in the Bismarck/Mandan area. I have been practicing law for about thirty-two years and have been practicing mental health law under Section 25-03.1 of the North Dakota Century Code for that same amount of time, as well. As a matter of fact my very first case as a licensed attorney was a mental health case.

During this period of time I have represented, on average, fifteen to twenty-five individuals a month on involuntary commitments.

I have come here today to speak in favor of House Bill No. 1117. As you can see, most of Bill No. 1117 pertains to changes in terminology and deleting portions of the commitment statute that were added in the 1990's, but are now moot.

First, some of the changes pertain to exchanging the word "Applicant" to the word "petitioner."

Second, regarding page 3, lines14-15. There have been, on occasion, times when a respondent refuses to appear in court and in one case, pre-covid, the sheriff's department forced a respondent to appear in court restrained in a wheelchair, both arms handcuffed to each of the arm rests and both legs shackled to the foot rests.

Now, the sheriff's department will no longer force a respondent to appear, leaving the respondent in the hospital. And lately, in ZOOM hearings (covid), a respondent who refuses to appear will just get up and walk out of the ZOOM-room where the respondent is to appear by computer screen. In these cases, I have to make an argument to the court, that by the respondent's actions of leaving the hearing there is an implication that the respondent waived the right to be present at the hearing and then continue on with the hearing.

The section 25-03.1-15 of the North Dakota Century Code

currently reads, "The respondent must be present at all hearings unless the respondent waives the right to be present either orally or in writing." This leaves respondents' counsel and the court in a dilemma since the respondent did not waive his/her hearing, either orally or in writing as the statute requires. This could create a delay in court proceedings because the statute requires the respondent to be present at the hearing.

As it turns out, I have been having to argue to the courts and the courts have agreed with me that by refusing to attend a hearing, the respondent implies that he or she is waiving his/her right to be present at the hearing and we hold the hearing without the respondent being present.

So, the proposed change is to allow the respondent's counsel to proceed to represent the respondent even though the respondent chooses not to be present and not have to worry about having to make implications to the court.

Third, regarding Section 7, lines 15-17 on page 5, the presenting language is confusing. For example, the original

phraseology states, "An initial order may not exceed ninety days."

This can be confusing because an initial order usually follows a preliminary hearing which cannot be longer than fourteen days.

So, this change is to clarify the language.

In the same section lines 25-31 goes back to the early 1990's when the whole commitment statute was amended. The old language sought to allow certain commitment orders to expire on their own after a certain amount of time. As you can see, this section is now moot.

Finally, in Section 9, lines 18-21 allows a respondent to appeal their case to the Supreme Court of North Dakota after certain types of hearings have been held. So, this amendment allows a respondent to appeal a modification order, an alternative treatment order or a less restrictive treatment order which are all final orders of the court.

I would be happy to answer any questions you may have.

Gregory Ian Runge Attorney at Law

House Bill 1117 Senate Judiciary Committee

Testimony Presented by Cynthia M. Feland District Court Judge Chair, Guardianship Workgroup March 17, 2021

Chair Larson, members of the Senate Judiciary Committee, my name is Cynthia Feland, District Court Judge in the South Central Judicial District and Chair of the Guardianship Workgroup. The Guardianship Workgroup is a multi-disciplinary group of professionals with extensive and varied experience in the area of guardianships created by former Chief Justice VandeWalle in 2013 and assigned the task of evaluating guardianship and conservator statutes and procedures in light of the National Probate Standards. During the last three legislative sessions, the Guardianship Workgroup has identified and recommended a number of statutory amendments to improve and strengthen procedures in cases involving guardianship for incapacitated adults, minors and in conservatorship cases. The Workgroup has also appeared and offered insight on other proposed legislation affecting guardianships in North Dakota.

Prior to the amendments by the House Judiciary Committee, HB 1117 contained provisions to remove Subsection 7 of N.D.C.C. §30.1-28-04 which allows guardians with full medical decision making authority to authorize involuntary treatment of their wards with prescribed medication. Subsection 7 was adopted during the 2017 legislative session following the introduction of two bills, HB 1365 and SB 2291, both which sought to amend N.D.C.C. §30.1-28-04 to include a provision permitting guardians to authorize the involuntary treatment of a ward with prescribed medication often referred to as treatment with "forced meds".

Members of the Guardianship Workgroup appeared at the 2017 committee hearings for both bills and expressed concerns with the overbroad authority granted to guardians and the lack

Testimony Presented by Cynthia M. Feland District Court Judge February 14, 2017 Page 2 of 6

of oversight if either bill was adopted without requiring a judicial hearing or specific findings related to the administration of forced medication for a ward. In an effort to address the concerns raised by the supporters of HB 1365 and SB 2291 in 2017, the Guardianship Workgroup in cooperation with the Department of Human Services met and drafted proposed amendments which set forth an expedited hearing procedure for guardians seeking to administer forced medication that otherwise followed the procedure within the civil commitment statutes (NDCC §§ 25-03.1-18.1 – 24). Although the amendments were presented to the conference committee in 2017, HB 1365 was ultimately adopted without the amendments to subsection 7 of §30.1-28-04 recommended by the Guardianship Workgroup.

Prior to the action taken by the House Judiciary to remove the amendments to subsection 7 of §30.1-28-04 in HB 1117, the Workgroup sought leave to submit amendments that would address the concerns raised prior to the adoption of subsection 7 in 2017. Chair Klemin graciously held HB 1117 to allow submission of the Workgroup's proposed amendments, but after review indicated that due to the extensive nature of the amendments, the amendments would be better addressed during the hearing on the bill in the Senate. Thus, the Guardianship Workgroup is requesting that the proposed amendments related to involuntary treatment with prescribed medication be made to HB 1117.

The amendments proposed address the same three main areas of concern previously expressed by the Guardianship Workgroup. First, there are a wide variety of medications available to treat mental illness. Each of those potential medications have varying side effects. In all non-guardianship mental health cases, a court order must be obtained before an individual may be involuntarily treated with prescribed medication. In determining whether to authorize the involuntary treatment with prescribed medication, the Court is required to consider a number

Testimony Presented by Cynthia M. Feland District Court Judge February 14, 2017 Page 3 of 6

of factors and to make specific findings which include a determination that the benefits of the treatment outweigh the known risks. Under the current provision of subsection 7, there are no requirements or specific findings that must be made by a guardian before authorizing involuntary treatment. While the current provision of N.D.C.C. §30.1-28-12(6) do require a recommendation from the ward's treating physician, PA, psychiatrist or advanced practice registered nurse prior to consenting to involuntary treatment, the procedure does not involve the same level of scrutiny that is afforded other mental health patients.

Second, the legal effect of a guardianship is to remove a ward's freedom of choice and place that responsibility with another, the guardian. This legislative body has recognized the gravity of that responsibility by requiring judicial oversight of certain decisions made by the guardian on behalf of the ward. For example, under NDCC §30.1-28-12, a guardian may not consent to psychosurgery, abortion, sterilization, or experimental treatment without court approval. Under NDCC §30.1-28-04(3), a ward may not be deprived of the right to vote, to marry or divorce, to have a driver's license or to possess a firearm without specific findings by the court. Finally, in a civil commitment, a party seeking to involuntarily treat a patient with prescribed medication in a non-emergency situation must obtain a court order, even though the individual may have already been civilly committed and deemed incapable of making responsible decisions about his or her care (N.D.C.C. § 25-03.1-18.1). The broad grant of authority to the guardian to consent to involuntary treatment of a ward with prescribed medication without court approval does not align with these laws.

The third and biggest concern of the Workgroup with the current provisions of subsection 7 is the potential for abuse. Although guardians are required to act with the best interests of their wards in mind, the members of the Workgroup discussed a number of situations where guardians

have not been given complete information before being asked to provide authorization for involuntary treatment with prescribed medication. Further, members of the workgroup have witnessed and shared a multitude of situations where guardians have abused their decision making authority when making decisions far less serious than authorized involuntary treatment with prescribed medication. By requiring court approval, an extra layer of protection is provided to ensure that the ward's personal freedom is recognized, the ward's best interests are being served, and that the potential for even unintentional abuse or misuse of decision making authority is minimized.

For these reasons, we ask this committee to consider amending HB 1117 to require court approval of involuntary treatment with prescribed medication for wards through an expedited hearing process for existing guardianships or specific findings by the court in the initial petition process.

Page 3, after line 19; includes within <u>Section 5 – Amendment</u>, an amendment to N.D.C.C. § 25-03.1-18.2 replacing the current authority of a guardian to authorize the use of involuntary treatment with prescribed medication for a period of up to 90 days before court intervention with the requirement that the guardian would need to obtain court approval at an expedited hearing under the provision of 30.1-28-16 through 30.1-28-19 before authorizing the involuntary treatment of the ward with prescribed medication.

Page 7, after line 2, replace the remainder of the bill with:

Section 11. Amendment. Amends subsection 2 of N.D.C.C. § 30.1-28-03 to add subdivision (p) allowing the petitioner to request as part of the original petition for guardianship the authority to authorize involuntary treatment with prescribed medication.

Page 5 of 6

The amendment addresses those situations where a ward has a history of noncompliance in taking prescribed medication that has previously been determined to be necessary for the ward's health.

Section 12. Amends N.D.C.C. § 30.1-28-04 to remove subsection (7) which gives guardians with full medical decision making authority the ability to authorize involuntary treatment of the ward with prescribed medication with prior court authorization.

Section 13. Amends N.D.C.C. § 30.1-28-12 outlining the general powers and duties of a guardian to remove subsection (6) which outlines the parameters under which the guardian is to authorize involuntary treatment of the ward with prescribed medication.

Section 14. Amends N.D.C.C. § 30.1-28-14 to correct the subsection reference created by these amendments.

Section 15. Creates N.D.C.C. § 30.1-28-16 establishing the procedure and contents of the petition to request the authority to authorize involuntary treatment of a ward with prescribed medication at the initial guardianship hearing or after guardianship has been established. The proposed amendments are consistent with the provision of Chapter 25.1-03.1-18.1.

Section 16. Creates N.D.C.C. § 30.1-28-17 establishing the procedure for an expedited hearing on a petition for authority to authorize involuntary treatment of a ward with prescribed medication.

Unlike the requirements under Chapter 25.1-03.1-18.1, the hearing must be held within 3 days.

Section 17. Creates N.D.C.C. § 30.1-28-18 establishing the length of time during which a guardian may authorize involuntary treatment of a ward with prescribed medication. Mirroring the

Testimony Presented by Cynthia M. Feland District Court Judge February 14, 2017 Page 6 of 6

provisions of Chapter 25.1-03.1-18.1(3), the grant of authority expires after 90 days. However, the proposed amendments differ from Chapter 25.1-03.1-18.1(3) in that Courts have the ability to provide the guardian with continuing authority if warranted.

Section 18. Creates N.D.C.C. § 30.1-28-19 clarifying that the provisions of Chapter 30.1-28 do not prohibit a hospital or treatment facility from rendering medical care if the care is immediately necessary and delay would endanger the ward's life or have an adverse effect on the ward's health.

Respectfully Submitted:

Cynthia M. Feland

District Judge

"SECTION 5. AMENDMENT. Section 25-03.1-18.2 of the North Dakota Century Code is amended and reenacted as follows:

25-03.1-18.2. Guardian consent to involuntary treatment with prescribed medication.

Notwithstanding sections 25-03.1-16, 25-03.1-18.1, and 25-03.1-24, if a patient refuses treatment with prescribed medication, a treating physician assistant, psychiatrist, or advanced practice registered nurse may treat the patient with prescribed medication upon consent of the patient's guardian pursuant to subsection 6 of section 30.1-28-12 30.1-28-16 through 30.1-28-19.

- 1. The guardian's consent for involuntary treatment with prescribed medication may not be in effect for more than ninety days without receiving another recommendation and determination pursuant to subsection 6 of section 30.1-28-12.
- 2. The patient has the right to be free of the effect of medication at the preliminary or treatment hearing by discontinuance of medication no later than twenty-four hours before the hearing unless, in the opinion of the prescriber, the need for the medication still exists or discontinuation would hamper the patient's preparation for and participation in the proceedings."

"SECTION 11. AMENDMENT. Subsection 2 of section 30.1-28-03 of the North Dakota Century Code is amended and reenacted as follows:

- 2. The petition for appointment of a guardian must state:
 - The name, address, and corporate or agency status of the petitioner, and its connection with or relationship to the proposed ward;
 - b. The name, age, and address of the proposed ward;
 - c. The name and address of any person or institution having care or custody over the proposed ward;

- d. The names and addresses of the spouse, parents, and adult children or, if none, any adult siblings and any adult with whom the proposed ward resides in a private residence, or, if none, the nearest adult relative;
- e. A brief description of and the approximate value of the real and personal property and income of the proposed ward, so far as they are known to the petitioner;
- f. The extent of guardianship authority sought, including full authority, limited authority, or no authority in each area of residential, educational, medical, legal, vocational, and financial decisionmaking unless the petitioner is undecided on the extent of authority in any area, in which case the petition must state the specific areas in which the authority is sought;
- g. The occupation and qualifications of the proposed guardian;
- h. The name and address of the attorney, if known, who most recently represented the proposed ward;
- i. A statement alleging specific facts establishing the necessity for the appointment of a guardian;
- j. The name and address of any current conservator appointed for the proposed ward;
- k. The name and address of any person designated as an attorney in fact or agent in a power of attorney or as an agent in a health care directive;
- 1. The name and address of any representative payee for the proposed ward;
- m. That less intrusive alternatives to guardianship have been considered;
- n. In the form of an attached recent statement, the physical, mental, and emotional limitations of the proposed ward from an expert examiner, if available; and
- o. Whether the petition seeks to restrict any of the following rights:
 - (1) To vote;
 - (2) To seek to change marital status; or
 - (3) To obtain or retain a motor vehicle operator's license; and
- p. If the proposed guardian seeks authority for involuntary treatment with prescribed psychiatric medication under section 30.1-28-16, a statement alleging specific facts under subsection 3 of section 30.1-28-16 and an attached recent report under subsection 2 of section 30.1-28-16.

SECTION 12. Section 30.1-28-04 of the North Dakota Century Code is amended and reenacted as follows:

30.1-28-04. (5-304) Findings - Order of appointment.

- The court shall exercise the authority conferred in this chapter consistent with the
 maximum self-reliance and independence of the incapacitated person and make
 appointive and other orders only to the extent necessitated by the incapacitated
 person's actual mental and adaptive limitations or other conditions warranting the
 procedure.
- 2. At a hearing held under this chapter, the court shall:
 - a. Hear evidence that the proposed ward is an incapacitated person. Age, eccentricity, poverty, or medical diagnosis alone is not sufficient to justify a finding of incapacity;
 - b. Hear evidence and determine whether there are any existing general durable powers of attorney and durable powers of attorney for health care. If there are validly executed durable powers of attorney, the court shall consider the appointed attorneys in fact and agents appointed thereunder when assessing alternative resource plans and the need for a guardian; and
 - c. Appoint a guardian and confer specific powers of guardianship only after finding in the record based on clear and convincing evidence that:
 - (1) The proposed ward is an incapacitated person;
 - (2) There is no available alternative resource plan that is suitable to safeguard the proposed ward's health, safety, or habilitation which could be used instead of a guardianship;
 - (3) The guardianship is necessary as the best means of providing care, supervision, or habilitation of the ward; and
 - (4) The powers and duties conferred upon the guardian are appropriate as the least restrictive form of intervention consistent with the ability of the ward for self-care.
- 3. Except upon specific findings of the court, a ward may not be deprived of any of the following legal rights: to vote, to seek to change marital status, or to obtain or retain a motor vehicle operator's license.
- 4. The court may find that the ward retains other specific rights.
- 5. The order appointing a guardian confers upon the guardian only those powers and duties specified in the order. In addition to any other powers conferred upon the guardian, the court's order must state whether the guardian has no authority, general authority, or limited authority to make decisions on behalf of the ward in

each of the areas of residential, educational, medical, legal, vocational, and financial decisionmaking. A grant of limited authority must specify the limitations upon the authority of the guardian or the authority retained by the ward. The court's order must require the guardian to provide within ninety days from the date of the order a beginning inventory of all assets owned by the ward or in which the ward has an interest. The guardian shall provide a copy of the beginning inventory to the ward and any interested persons designated by the court in its order. Unless terminated earlier by the court, an order appointing or reappointing a guardian under this section is effective for up to five years. At least ninety days before the expiration of the initial order of appointment or any following order of reappointment, the court shall request and consider information submitted by the guardian, ward, ward's attorney, if any, and any interested persons regarding whether the need for a guardian continues to exist. If it is recommended that the guardianship continue, the court may appoint a guardian ad litem or visitor, or both, in accordance with section 30.1-28-03. The court shall hold a hearing on whether the guardianship should continue. Following the hearing and consideration of submitted information, the court may reappoint the guardian for up to another five years, allow the existing order to expire, or appoint a new guardian in accordance with this section. The supreme court, by rule or order, shall provide for the regular review of guardianship in existence on August 1, 2015.

- 6. Unless a court of competent jurisdiction determines otherwise, a durable power of attorney for health care executed pursuant to chapter 23-06.5 takes precedence over any authority to make medical decisions granted to a guardian pursuant to chapter 30.1-28.
- 7. A grant of general authority to make medical decisions includes the authority to consent to involuntary treatment with prescribed medications. Except upon specific findings of the court, a grant of limited authority does not include authority to consent to involuntary treatment with prescribed medications.

SECTION 13. Section 30.1-28-12 of the North Dakota Century Code is amended and reenacted as follows:

30.1-28-12. (5-312) General powers and duties of guardian.

- 1. A guardian of an incapacitated person has only the powers and duties specified by the court.
- 2. To the extent that it is consistent with the terms of an order by a court of competent jurisdiction, the guardian is entitled to custody of the person of the ward and may establish the ward's place of residence within or without this state. However, no guardian may voluntarily admit a ward to a mental health facility or state institution for a period of more than forty-five days without a mental health commitment proceeding or other court order. Notwithstanding the other

provisions of this subsection, the guardian may readmit a ward to a mental health facility or a state institution within sixty days of discharge from that institution, if the original admission to the facility or institution had been authorized by the court.

- 3. If entitled to custody of the ward, the guardian should make provision for the care, comfort, and maintenance of the ward and, whenever appropriate, arrange for the ward's training, education, or habilitative services. The guardian shall take reasonable care of the ward's clothing, furniture, vehicles, and personal effects.
- 4. Notwithstanding general or limited authority to make medical decisions on behalf of the ward, no guardian may consent to psychosurgery, abortion, sterilization, or experimental treatment of any kind unless the procedure is first approved by order of the court.
- 5. When exercising the authority granted by the court, the guardian shall safeguard the civil rights and personal autonomy of the ward to the fullest extent possible by:
 - a. Meeting with the ward following the hearing, unless the ward is represented by an attorney, and explaining to the fullest extent possible the contents of the court's order and the extent of the guardian's authority;
 - b. Involving the ward as fully as is practicable in making decisions with respect to the ward's living arrangements, health care, and other aspects of the ward's care; and
 - c. Ensuring the ward's maximum personal freedom by using the least restrictive forms of intervention and only as necessary for the safety of the ward or others.
- 6. A guardian with authority to consent to involuntary treatment with prescribed medications may not provide consent without receiving a recommendation and determination from the ward's treating physician, physician assistant, psychiatrist, or advanced practice registered nurse that:
 - a. The proposed prescribed medication is clinically appropriate and necessary to effectively treat the ward and that the ward requires treatment;
 - The ward was offered that treatment and refused it or that the ward lacks
 the capacity to make or communicate a responsible decision about that
 treatment;
 - Prescribed medication is the least restrictive form of intervention necessary to meet the treatment needs of the ward; and
 - d. The benefits of the treatment outweigh the known risks to the ward.

- 7. 6. If no conservator for the estate of the ward has been appointed and if the guardian has been granted authority to make financial decisions on behalf of the ward, the guardian may:
 - a. Institute proceedings to compel any person under a duty to support the ward or to pay sums for the welfare of the ward to perform that duty.
 - b. Receive money and tangible property deliverable to the ward and apply the money and property for support, care, and education of the ward; but, the guardian may not use funds from the ward's estate for room and board which the guardian or the guardian's spouse, parent, or child have furnished the ward unless a charge for the service is approved by order of the court made upon notice to at least one of the next of kin of the ward, if notice is possible. The guardian shall exercise care to conserve any excess for the ward's needs.
- 8. 7. If a conservator has been appointed, all of the ward's estate received by the guardian in excess of those funds expended to meet current expenses for support, care, and education of the ward must be paid to the conservator for management as provided in this title, and the guardian must account to the conservator for funds expended.
- A guardian shall file an annual report with the court regarding the exercise of 9. 8. powers and duties in areas of authority specified in the court's order of appointment. The report must describe the status or condition of the ward, including any change of residence and reasons for the change, any medical treatment received by or withheld from the ward, any expenditure and income affecting the ward, any sale or transfer of property affecting the ward, and any exercise of legal authority by the guardian affecting the ward. The report must include changes that have occurred since the previous reporting period and an accounting of the ward's estate. The guardian also shall report whether the ward continues to require guardianship and whether any powers of the guardian should be increased or limited. The report must be filed with the clerk of district court. The filing of the report does not constitute an adjudication or a determination of the merits of the report nor does the filing of the report constitute the court's approval of the report. The court may approve a report and allow and settle an accounting only upon notice to the ward's guardian ad litem and other interested persons who have made an appearance or requested notice of proceedings. The office of the state court administrator shall provide printed forms that may be used to fulfill reporting requirements. Any report must be similar in substance to the state court administrator's form. The forms must be available in the office of clerk of district court or obtainable through the supreme court's internet website.
- 10. 9. Copies of the guardian's annual report to the court and of any other reports required by the court must be mailed to the ward and any interested persons

designated by the court in its order. The ward's copy must be accompanied by a statement, printed with not less than double-spaced twelve-point type, of the ward's right to seek alteration, limitation, or termination of the guardianship at any time.

11. 10. The guardian is entitled to receive reasonable sums for services and for room and board furnished to the ward as approved by the court or as agreed upon between the guardian and the conservator, provided the amounts agreed upon are reasonable under the circumstances. The guardian may request the conservator to expend the ward's estate by payment to third persons or institutions for the ward's care and maintenance.

SECTION 14. Section 30.1-28-14 of the North Dakota Century Code is amended and reenacted as follows:

30.1-28-14. Guardianships established before July 1, 1990.

The powers and duties of guardians and the rights and privileges of wards under guardianships established before July 1, 1990, are as provided by this chapter as it existed on June 30, 1990, and are not affected by chapter 405 of the 1989 Session Laws, except that guardians appointed before July 1, 1990, must comply with the requirements of subsections 2, 4, 5, and 9 8 of section 30.1-28-12.

SECTION 15. Section 30.1-28-16 of the North Dakota Century Code is created and enacted as follows:

30.1-28-16. Court-authorized involuntary treatment with prescribed medication.

- 1. Upon notice and hearing, a guardian may request authorization from the court for a ward to be treated with prescribed medication. The petition may be considered by the court in the initial procedure for court appointment of a guardian or at a separate involuntary treatment hearing. Upon the filing of a petition, the court shall set a date for hearing on the issues and appoint an attorney to represent the ward, unless the ward is represented by private counsel.
- 2. As a part of the petition, the guardian must provide a report from the treating expert examiner which shall certify:
 - a. That the proposed prescribed medication is clinically appropriate and necessary to effectively treat the ward and that the ward is a person requiring treatment:
 - b. That the ward was offered that treatment and refused it or that the ward lacks the capacity to make or communicate a responsible decision about that treatment;
 - c. That prescribed medication is the least restrictive form of intervention necessary to meet the treatment needs of the ward; and

- d. That the benefits of the treatment outweigh the known risks to the ward.
- 3. a. Evidence of the factors certified under subsection 1 may be presented to the court within the petition and during the initial hearing for court appointment of a guardian under section 30.1-28-03 or at a separate involuntary treatment hearing under this section. The court in ruling on the requested authorization for involuntary treatment with prescribed medication shall consider all relevant evidence presented at the hearing, including:
 - (1) The danger the ward presents to self or others;
 - (2) The ward's current condition;
 - (3) The ward's treatment history;
 - (4) The results of previous medication trials:
 - (5) The efficacy of current or past treatment modalities concerning the ward;
 - (6) The ward's prognosis; and
 - (7) The effect of the ward's mental condition on the ward's capacity to consent.
 - b. Involuntary treatment with prescribed medication may not be authorized by the court solely for the convenience of facility staff or for the purpose of punishment.
- 4. If the factors certified under subsection 1 have been demonstrated by clear and convincing evidence, the court may include in its findings on the petition, or it may issue a separate order after notice and hearing, authoring the treating medical professional to involuntary treat the ward with prescribed medication on such terms and conditions as are appropriate. The order for involuntary treatment with prescribed medication, however, may not be in effect for more than ninety days, unless specifically authorized by the court.

SECTION 16. Section 30.1-28-17 of the North Dakota Century Code is created and enacted as follows:

30.1-28-17. Involuntary treatment with prescribed medication hearing.

- 1. The involuntary treatment with prescribed medication hearing, unless waived by the ward or the ward has been released as a person not requiring treatment, must be held within three days, exclusive of weekends and holidays, of the date of the filing of the petition. The court may extend the time for hearing for good cause.
- 2. The ward has the right to an examination by an independent expert examiner if so requested. If the ward is indigent, the county of residence of the ward shall pay

- for the cost of the examination and the ward may choose an independent expert examiner.
- The hearing must be held in the county of the ward's residence or location or the county where the state hospital or treatment facility treating the ward is located. At the hearing, evidence in support of the request must be presented by the guardian or guardian's private counsel. During the hearing, the guardian and the ward must be afforded an opportunity to testify and to present and cross-examine witnesses. The court may receive the testimony of any other interested person. All individuals not necessary for the conduct of the proceeding must be excluded except that the court may admit individuals having a legitimate interest in the proceeding. The hearing must be conducted in as informal a manner as practical, but the issue must be tried as a civil matter. Discovery and the power of subpoena permitted under the North Dakota Rules of Civil Procedure are available to the ward. The court shall receive all relevant and material evidence that may be offered as governed by the North Dakota Rules of Evidence. There is a presumption in favor of the ward, and the burden of proof in support of the petition is upon the petitioner. If, upon completion of the hearing, the court finds that the petition has not been sustained by clear and convincing evidence, the court shall deny the petition.

SECTION 17. Section 30.1-28-18 of the North Dakota Century Code is created and enacted as follows:

30.1-28-18. Length of involuntary treatment with prescribed medication and continuing treatment orders.

An initial order for involuntary treatment with prescribed medication may not exceed ninety days, unless the court is presented with evidence that the ward will continue to require treatment beyond the ninety day period with the prescribed medication and the ward has habitually refused the treatment. If the court determines the ward will continue to require treatment with the prescribed medication beyond the ninety day period and orders continuing treatment, the order for continuing treatment may be for a period not to exceed the term of the appointment of the guardian.

SECTION 18. Section 30.1-28-19 of the North Dakota Century Code is created and enacted as follows:

30.1-28-19. Application.

This chapter does not prohibit a hospital or treatment facility from rendering medical care without consultation, if in the exercise of sound medical judgment that care is immediately necessary and delay would endanger the life of or adversely and substantially affect the health of the ward."

"SECTION 5. AMENDMENT. Section 25-03.1-18.2 of the North Dakota Century Code is amended and reenacted as follows:

25-03.1-18.2. Guardian consent to involuntary treatment with prescribed medication.

Notwithstanding sections 25-03.1-16, 25-03.1-18.1, and 25-03.1-24, if a patient refuses treatment with prescribed medication, a treating physician, physician assistant, psychiatrist, or advanced practice registered nurse may treat the patient with prescribed medication upon consent of the patient's guardian pursuant to subsection 6 of section 30.1-28-12 sections 30.1-28-16, 30.1-28-17, 30.1-28-18, and 30.1-28-19.

- 1. The guardian's consent for involuntary treatment with prescribed medication may not be in effect for more than ninety days without receiving another recommendation and determination pursuant to subsection 6 of section 30.1-28-12.
- 2. The patient has the right to be free of the effects of medication at the preliminary or treatment hearing by discontinuance of medication no later than twenty four hours before the hearing unless, in the opinion of the prescriber, the need for the medication still exists or discontinuation would hamper the patient's preparation for and participation in the proceedings."

Page 6, after line 29, insert:

"SECTION 11. AMENDMENT. Subsection 2 of section 30.1-28-03 of the North Dakota Century Code is amended and reenacted as follows:

- 2. The petition for appointment of a guardian must state:
 - a. The name, address, and corporate or agency status of the petitioner, and its connection with or relationship to the proposed ward;
 - b. The name, age, and address of the proposed ward:

- c. The name and address of any person or institution having care or custody over the proposed ward;
- d. The names and addresses of the spouse, parents, and adult children or, if none, any adult siblings and any adult with whom the proposed ward resides in a private residence, or, if none, the nearest adult relative;
- e. A brief description of and the approximate value of the real and personal property and income of the proposed ward, so far as they are known to the petitioner;
- f. The extent of guardianship authority sought, including full authority, limited authority, or no authority in each area of residential, educational, medical, legal, vocational, and financial decisionmaking unless the petitioner is undecided on the extent of authority in any area, in which case the petition must state the specific areas in which the authority is sought;
- g. The occupation and qualifications of the proposed guardian;
- h. The name and address of the attorney, if known, who most recently represented the proposed ward;
- i. A statement alleging specific facts establishing the necessity for the appointment of a guardian;
- j. The name and address of any current conservator appointed for the proposed ward;
- The name and address of any person designated as an attorney in fact or agent in a power of attorney or as an agent in a health care directive;
- I. The name and address of any representative payee for the proposed ward;
- m. That less intrusive alternatives to guardianship have been considered;
- In the form of an attached recent statement, the physical, mental, and emotional limitations of the proposed ward from an expert examiner, if available; and
- o. Whether the petition seeks to restrict any of the following rights:
 - (1) To vote;
 - (2) To seek to change marital status; or
 - (3) To obtain or retain a motor vehicle operator's license; and
- p. If the proposed guardian seeks authority to involuntary treatment with prescribed psychiatric medication under section 30.1-28-16, a statement alleging specific facts under subsection 3 of section 30.1-28-16 and an attached recent report under subsection 2 of section 30.1-28-16.

SECTION 12. AMENDMENT. Section 30.1-28-04 of the North Dakota Century Code is amended and reenacted as follows:

30.1-28-04. (5-304) Findings - Order of appointment.

- 1. The court shall exercise the authority conferred in this chapter consistent with the maximum self-reliance and independence of the incapacitated person and make appointive and other orders only to the extent necessitated by the incapacitated person's actual mental and adaptive limitations or other conditions warranting the procedure.
- 2. At a hearing held under this chapter, the court shall:
 - Hear evidence that the proposed ward is an incapacitated person.
 Age, eccentricity, poverty, or medical diagnosis alone is not sufficient to justify a finding of incapacity;
 - b. Hear evidence and determine whether there are any existing general durable powers of attorney and durable powers of attorney for health care. If there are validly executed durable powers of attorney, the court shall consider the appointed attorneys in fact and agents appointed thereunder when assessing alternative resource plans and the need for a guardian; and
 - c. Appoint a guardian and confer specific powers of guardianship only after finding in the record based on clear and convincing evidence that:
 - (1) The proposed ward is an incapacitated person;
 - (2) There is no available alternative resource plan that is suitable to safeguard the proposed ward's health, safety, or habilitation which could be used instead of a guardianship;
 - (3) The guardianship is necessary as the best means of providing care, supervision, or habilitation of the ward; and
 - (4) The powers and duties conferred upon the guardian are appropriate as the least restrictive form of intervention consistent with the ability of the ward for self-care.
- 3. Except upon specific findings of the court, a ward may not be deprived of any of the following legal rights: to vote, to seek to change marital status, or to obtain or retain a motor vehicle operator's license.
- 4. The court may find that the ward retains other specific rights.
- 5. The order appointing a guardian confers upon the guardian only those powers and duties specified in the order. In addition to any other powers conferred upon the guardian, the court's order must state whether the guardian has no authority, general authority, or limited authority to make decisions on behalf of the ward in each of the areas of residential, educational, medical, legal, vocational, and financial decisionmaking. A grant of limited authority must specify the limitations upon the authority of the guardian or the authority retained by the ward. The court's order must require the guardian to provide within ninety days from the date of the order a beginning inventory of all assets owned by the ward or in which the ward has an interest. The guardian shall provide a copy of the beginning inventory to the ward and any interested persons designated by the court

10

in its order. Unless terminated earlier by the court, an order appointing or reappointing a guardian under this section is effective for up to five years. At least ninety days before the expiration of the initial order of appointment or any following order of reappointment, the court shall request and consider information submitted by the guardian, ward, ward's attorney, if any, and any interested persons regarding whether the need for a guardian continues to exist. If it is recommended that the guardianship continue, the court may appoint a guardian ad litem or visitor, or both, in accordance with section 30.1-28-03. The court shall hold a hearing on whether the guardianship should continue. Following the hearing and consideration of submitted information, the court may reappoint the guardian for up to another five years, allow the existing order to expire, or appoint a new guardian in accordance with this section. The supreme court, by rule or order, shall provide for the regular review of guardianship in existence on August 1, 2015.

- 6. Unless a court of competent jurisdiction determines otherwise, a durable power of attorney for health care executed pursuant to chapter 23-06.5 takes precedence over any authority to make medical decisions granted to a guardian pursuant to chapter 30.1-28.
- 7. A grant of general authority to make medical decisions includes the authority to consent to involuntary treatment with prescribed medications. Except upon specific findings of the court, a grant of limited authority does not include authority to consent to involuntary treatment with prescribed medications.

SECTION 13. AMENDMENT. Section 30.1-28-12 of the North Dakota Century Code is amended and reenacted as follows:

30.1-28-12. (5-312) General powers and duties of guardian.

- 1. A guardian of an incapacitated person has only the powers and duties specified by the court.
- 2. To the extent that it is consistent with the terms of an order by a court of competent jurisdiction, the guardian is entitled to custody of the person of the ward and may establish the ward's place of residence within or without this state. However, no guardian may voluntarily admit a ward to a mental health facility or state institution for a period of more than forty-five days without a mental health commitment proceeding or other court order. Notwithstanding the other provisions of this subsection, the guardian may readmit a ward to a mental health facility or a state institution within sixty days of discharge from that institution, if the original admission to the facility or institution had been authorized by the court.
- 3. If entitled to custody of the ward, the guardian should make provision for the care, comfort, and maintenance of the ward and, whenever appropriate, arrange for the ward's training, education, or habilitative services. The guardian shall take reasonable care of the ward's clothing, furniture, vehicles, and personal effects.
- 4. Notwithstanding general or limited authority to make medical decisions on behalf of the ward, no guardian may consent to psychosurgery, abortion,

500

- sterilization, or experimental treatment of any kind unless the procedure is first approved by order of the court.
- 5. When exercising the authority granted by the court, the guardian shall safeguard the civil rights and personal autonomy of the ward to the fullest extent possible by:
 - Meeting with the ward following the hearing, unless the ward is represented by an attorney, and explaining to the fullest extent possible the contents of the court's order and the extent of the guardian's authority;
 - Involving the ward as fully as is practicable in making decisions with respect to the ward's living arrangements, health care, and other aspects of the ward's care; and
 - c. Ensuring the ward's maximum personal freedom by using the least restrictive forms of intervention and only as necessary for the safety of the ward or others.
- 6. A guardian with authority to consent to involuntary treatment with prescribed medications may not provide consent without receiving a recommendation and determination from the ward's treating physician, physician assistant, psychiatrist, or advanced practice registered nurse that:
 - a. The proposed prescribed medication is clinically appropriate and necessary to effectively treat the ward and that the ward requires treatment:
 - b. The ward was offered that treatment and refused it or that the ward lacks the capacity to make or communicate a responsible decision about that treatment:
 - e. Prescribed medication is the least restrictive form of intervention necessary to meet the treatment needs of the ward; and
 - d. The benefits of the treatment outweigh the known risks to the ward.
- 7. If no conservator for the estate of the ward has been appointed and if the guardian has been granted authority to make financial decisions on behalf of the ward, the guardian may:
 - a. Institute proceedings to compel any person under a duty to support the ward or to pay sums for the welfare of the ward to perform that duty.
 - b. Receive money and tangible property deliverable to the ward and apply the money and property for support, care, and education of the ward; but, the guardian may not use funds from the ward's estate for room and board which the guardian or the guardian's spouse, parent, or child have furnished the ward unless a charge for the service is approved by order of the court made upon notice to at least one of the next of kin of the ward, if notice is possible. The guardian shall exercise care to conserve any excess for the ward's needs.

- 8.7. If a conservator has been appointed, all of the ward's estate received by the guardian in excess of those funds expended to meet current expenses for support, care, and education of the ward must be paid to the conservator for management as provided in this title, and the guardian must account to the conservator for funds expended.
- 9.8. A quardian shall file an annual report with the court regarding the exercise of powers and duties in areas of authority specified in the court's order of appointment. The report must describe the status or condition of the ward, including any change of residence and reasons for the change, any medical treatment received by or withheld from the ward, any expenditure and income affecting the ward, any sale or transfer of property affecting the ward, and any exercise of legal authority by the guardian affecting the ward. The report must include changes that have occurred since the previous reporting period and an accounting of the ward's estate. The quardian also shall report whether the ward continues to require guardianship and whether any powers of the guardian should be increased or limited. The report must be filed with the clerk of district court. The filing of the report does not constitute an adjudication or a determination of the merits of the report nor does the filing of the report constitute the court's approval of the report. The court may approve a report and allow and settle an accounting only upon notice to the ward's guardian ad litem and other interested persons who have made an appearance or requested notice of proceedings. The office of the state court administrator shall provide printed forms that may be used to fulfill reporting requirements. Any report must be similar in substance to the state court administrator's form. The forms must be available in the office of clerk of district court or obtainable through the supreme court's internet website.
- 40.9. Copies of the guardian's annual report to the court and of any other reports required by the court must be mailed to the ward and any interested persons designated by the court in its order. The ward's copy must be accompanied by a statement, printed with not less than double-spaced twelve-point type, of the ward's right to seek alteration, limitation, or termination of the guardianship at any time.
- The guardian is entitled to receive reasonable sums for services and for room and board furnished to the ward as approved by the court or as agreed upon between the guardian and the conservator, provided the amounts agreed upon are reasonable under the circumstances. The guardian may request the conservator to expend the ward's estate by payment to third persons or institutions for the ward's care and maintenance.

SECTION 14. AMENDMENT. Section 30.1-28-14 of the North Dakota Century Code is amended and reenacted as follows:

30.1-28-14. Guardianships established before July 1, 1990.

The powers and duties of guardians and the rights and privileges of wards under guardianships established before July 1, 1990, are as provided by this chapter as it existed on June 30, 1990, and are not affected by chapter 405 of the 1989 Session Laws, except that guardians appointed before July 1, 1990, must comply with the requirements of subsections 2, 4, 5, and 98 of section 30.1-28-12.

~8

SECTION 15. Section 30.1-28-16 of the North Dakota Century Code is created and enacted as follows:

<u>30.1-28-16. Court-authorized involuntary treatment with prescribed medication.</u>

- 1. Upon notice and a hearing, a guardian may request authorization from the court for a ward to be treated with prescribed medication. The court may consider the petition in the initial procedure for court appointment of a guardian or at a separate involuntary treatment hearing.
- 2. As a part of a petition, the guardian shall provide a report from the treating expert examiner which must certify:
 - a. The proposed prescribed medication is clinically appropriate and necessary to treat the ward effectively and that the ward is a person requiring treatment;
 - b. The ward was offered that treatment and refused the treatment or that the ward lacks the capacity to make or communicate a responsible decision about that treatment:
 - c. <u>Prescribed medication is the least restrictive form of intervention necessary to meet the treatment needs of the ward; and</u>
 - <u>d.</u> The benefits of the treatment outweigh the known risks to the ward.
- 3. a. Evidence of the factors certified under subsection 1 may be presented to the court within the petition and during the initial hearing for court appointment of a guardian under section 30.1-28-03 or at a separate involuntary treatment hearing under this section. The court in ruling on the requested authorization for involuntary treatment with prescribed medication shall consider all relevant evidence presented at the hearing, including:
 - (1) The danger the ward presents to self or others;
 - (2) The ward's current condition;
 - (3) The ward's treatment history;
 - (4) The results of previous medication trials:
 - (5) The efficacy of current or past treatment modalities concerning the ward;
 - (6) The ward's prognosis; and
 - (7) The effect of the ward's mental condition on the ward's capacity to consent.
 - b. Involuntary treatment with prescribed medication may not be authorized by the court solely for the convenience of facility staff or for the purpose of punishment.
- 4. If the factors certified under subsection 1 have been demonstrated by clear and convincing evidence, the court may include in the court's findings on the petition, or the court may issue a separate order after notice and

C &

hearing, authoring the treating medical professional to involuntarily treat the ward with prescribed medication on such terms and conditions as are appropriate. However, unless specifically authorized by the court, the order for involuntary treatment with prescribed medication may not be in effect for more than ninety days.

SECTION 16. Section 30.1-28-17 of the North Dakota Century Code is created and enacted as follows:

30.1-28-17. Involuntary treatment with prescribed medication hearing.

- 1. The involuntary treatment with prescribed medication hearing, unless waived by the ward or the ward has been released as a person not requiring treatment, must be held within three days, exclusive of weekends and holidays, of the date of the filing of the petition. The court may extend the time for hearing for good cause.
- 2. The ward has the right to an examination by an independent expert examiner if so requested. If the ward is indigent, the county of residence of the ward shall pay for the cost of the examination and the ward may choose an independent expert examiner.
- <u>3.</u> The hearing must be held in the county of the ward's residence or location or the county in which the state hospital or treatment facility treating the ward is located. At the hearing, evidence in support of the request must be presented by the guardian or guardian's private counsel. During the hearing, the guardian and the ward must be afforded an opportunity to testify and to present and cross-examine witnesses. The court may receive the testimony of any other interested person. All individuals not necessary for the conduct of the proceeding must be excluded except that the court may admit individuals having a legitimate interest in the proceeding. The hearing must be conducted in as informal a manner as practical, but the issue must be tried as a civil matter. Discovery and the power of subpoena permitted under the North Dakota Rules of Civil Procedure are available to the ward. The court shall receive all relevant and material evidence that may be offered as governed by the North Dakota Rules of Evidence. There is a presumption in favor of the ward, and the burden of proof in support of the petition is upon the petitioner. If, upon completion of the hearing, the court finds the petition has not been sustained by clear and convincing evidence, the court shall deny the petition.

SECTION 17. Section 30.1-28-18 of the North Dakota Century Code is created and enacted as follows:

30.1-28-18. Length of involuntary treatment with prescribed medication and continuing treatment orders.

An initial order for involuntary treatment with prescribed medication may not exceed ninety days unless the court is presented with evidence the ward will continue to require treatment beyond the ninety-day period with the prescribed medication and the ward habitually has refused the treatment. If the court determines the ward will continue to require treatment with the prescribed medication beyond the ninety-day period and orders continuing treatment, the order for continuing treatment may be for a period not to exceed the term of the appointment of the guardian.

00

SECTION 18. Section 30.1-28-19 of the North Dakota Century Code is created and enacted as follows:

30.1-28-19. Application.

This chapter does not prohibit a hospital or treatment facility from rendering medical care without consultation, if in the exercise of sound medical judgment that care is immediately necessary and delay would endanger the life of or adversely and substantially affect the health of the ward."

Renumber accordingly

"SECTION 5. AMENDMENT. Section 25-03.1-18.2 of the North Dakota Century Code is amended and reenacted as follows:

25-03.1-18.2. Guardian consent to involuntary treatment with prescribed medication.

Notwithstanding sections 25-03.1-16, 25-03.1-18.1, and 25-03.1-24, if a patient refuses treatment with prescribed medication, a treating physician, physician assistant, psychiatrist, or advanced practice registered nurse may treat the patient with prescribed medication upon consent of the patient's guardian pursuant to subsection 6 of section 30.1-28-12 sections 30.1-28-16, 30.1-28-17, 30.1-28-18, and 30.1-28-19.

- The guardian's consent for involuntary treatment with prescribed medication may not be in effect for more than ninety days without receiving another recommendation and determination pursuant tosubsection 6 of section 30.1-28-12.
- 2. The patient has the right to be free of the effects of medication at the preliminary or treatment hearing by discontinuance of medication no later than twenty-four hours before the hearing unless, in the opinion of the prescriber, the need for the medication still exists or discontinuation would hamper the patient's preparation for and participation in the proceedings."

Page 6, after line 29, insert:

"SECTION 11. AMENDMENT. Subsection 2 of section 30.1-28-03 of the North Dakota Century Code is amended and reenacted as follows:

- 2. The petition for appointment of a guardian must state:
 - a. The name, address, and corporate or agency status of the petitioner, and its connection with or relationship to the proposed ward;
 - b. The name, age, and address of the proposed ward;
 - The name and address of any person or institution having care or custody over the proposed ward;

- d. The names and addresses of the spouse, parents, and adult children or, if none, any adult siblings and any adult with whom the proposed ward resides in a private residence, or, if none, the nearest adult relative;
- e. A brief description of and the approximate value of the real and personal property and income of the proposed ward, so far as they are known to the petitioner;
- f. The extent of guardianship authority sought, including full authority, limited authority, or no authority in each area of residential, educational, medical, legal, vocational, and financial decisionmaking unless the petitioner is undecided on the extent of authority in any area, in which case the petition must state the specific areas in which the authority is sought;
- g. The occupation and qualifications of the proposed guardian;
- h. The name and address of the attorney, if known, who most recently represented the proposed ward;
- A statement alleging specific facts establishing the necessity for the appointment of a guardian;
- The name and address of any current conservator appointed for the proposed ward;
- k. The name and address of any person designated as an attorney in fact or agent in a power of attorney or as an agent in a health care directive;
- The name and address of any representative payee for the proposed ward;
- m. That less intrusive alternatives to guardianship have been considered:
- In the form of an attached recent statement, the physical, mental, and emotional limitations of the proposed ward from an expert examiner, if available; and
- Whether the petition seeks to restrict any of the following rights:
 - (1) To vote;
 - (2) To seek to change marital status; or
 - (3) To obtain or retain a motor vehicle operator's license; and
- p. If the proposed guardian seeks authority to involuntary treatment with prescribed psychiatric medication under section 30.1-28-16, a statement alleging specific facts under subsection 3 of section 30.1-28-16 and an attached recent report under subsection 2 of section 30.1-28-16.

SECTION 12. AMENDMENT. Section 30.1-28-04 of the North Dakota Century Code is amended and reenacted as follows:

30.1-28-04. (5-304) Findings - Order of appointment.

 The court shall exercise the authority conferred in this chapter consistent with the maximum self-reliance and independence of the incapacitated person and make appointive and other orders only to the extent necessitated by the incapacitated person's actual mental and adaptive limitations or other conditions warranting the procedure.

- 2. At a hearing held under this chapter, the court shall:
 - Hear evidence that the proposed ward is an incapacitated person.
 Age, eccentricity, poverty, or medical diagnosis alone is not sufficient to justify a finding of incapacity;
 - b. Hear evidence and determine whether there are any existing general durable powers of attorney and durable powers of attorney for health care. If there are validly executed durable powers of attorney, the court shall consider the appointed attorneys in fact and agents appointed thereunder when assessing alternative resource plans and the need for a guardian; and
 - c. Appoint a guardian and confer specific powers of guardianship only after finding in the record based on clear and convincing evidence that:
 - (1) The proposed ward is an incapacitated person;
 - (2) There is no available alternative resource plan that is suitable to safeguard the proposed ward's health, safety, or habilitation which could be used instead of a guardianship;
 - (3) The guardianship is necessary as the best means of providing care, supervision, or habilitation of the ward; and
 - (4) The powers and duties conferred upon the guardian are appropriate as the least restrictive form of intervention consistent with the ability of the ward for self-care.
- Except upon specific findings of the court, a ward may not be deprived of any of the following legal rights: to vote, to seek to change marital status, or to obtain or retain a motor vehicle operator's license.
- 4. The court may find that the ward retains other specific rights.
- The order appointing a guardian confers upon the guardian only those 5. powers and duties specified in the order. In addition to any other powers conferred upon the guardian, the court's order must state whether the guardian has no authority, general authority, or limited authority to make decisions on behalf of the ward in each of the areas of residential, educational, medical, legal, vocational, and financial decisionmaking. A grant of limited authority must specify the limitations upon the authority of the guardian or the authority retained by the ward. The court's order must require the guardian to provide within ninety days from the date of the order a beginning inventory of all assets owned by the ward or in which the ward has an interest. The guardian shall provide a copy of the beginning inventory to the ward and any interested persons designated by the court in its order. Unless terminated earlier by the court, an order appointing or reappointing a guardian under this section is effective for up to five years. At least ninety days before the expiration of the initial order of appointment or any following order of reappointment, the court shall request and consider information submitted by the guardian, ward,

ward's attorney, if any, and any interested persons regarding whether the need for a guardian continues to exist. If it is recommended that the guardianship continue, the court may appoint a guardian ad litem or visitor, or both, in accordance with section 30.1-28-03. The court shall hold a hearing on whether the guardianship should continue. Following the hearing and consideration of submitted information, the court may reappoint the guardian for up to another five years, allow the existing order to expire, or appoint a new guardian in accordance with this section. The supreme court, by rule or order, shall provide for the regular review of guardianship in existence on August 1, 2015.

- Unless a court of competent jurisdiction determines otherwise, a durable power of attorney for health care executed pursuant to chapter 23-06.5 takes precedence over any authority to make medical decisions granted to a guardian pursuant to chapter 30.1-28.
- 7. A grant of general authority to make medical decisions includes the authority to consent to involuntary treatment with prescribed medications. Except upon specific findings of the court, a grant of limited authority does not include authority to consent to involuntary treatment with prescribed medications.

SECTION 13. AMENDMENT. Section 30.1-28-12 of the North Dakota Century Code is amended and reenacted as follows:

30.1-28-12. (5-312) General powers and duties of guardian.

- 1. A guardian of an incapacitated person has only the powers and duties specified by the court.
- 2. To the extent that it is consistent with the terms of an order by a court of competent jurisdiction, the guardian is entitled to custody of the person of the ward and may establish the ward's place of residence within or without this state. However, no guardian may voluntarily admit a ward to a mental health facility or state institution for a period of more than forty-five days without a mental health commitment proceeding or other court order. Notwithstanding the other provisions of this subsection, the guardian may readmit a ward to a mental health facility or a state institution within sixty days of discharge from that institution, if the original admission to the facility or institution had been authorized by the court.
- If entitled to custody of the ward, the guardian should make provision for the care, comfort, and maintenance of the ward and, whenever appropriate, arrange for the ward's training, education, or habilitative services. The guardian shall take reasonable care of the ward's clothing, furniture, vehicles, and personal effects.
- 4. Notwithstanding general or limited authority to make medical decisions on behalf of the ward, no guardian may consent to psychosurgery, abortion, sterilization, or experimental treatment of any kind unless the procedure is first approved by order of the court.
- 5. When exercising the authority granted by the court, the guardian shall safeguard the civil rights and personal autonomy of the ward to the fullest extent possible by:
 - Meeting with the ward following the hearing, unless the ward is represented by an attorney, and explaining to the fullest extent possible the contents of the court's order and the extent of the guardian's authority;

- Involving the ward as fully as is practicable in making decisions with respect to the ward's living arrangements, health care, and other aspects of the ward's care; and
- c. Ensuring the ward's maximum personal freedom by using the least restrictive forms of intervention and only as necessary for the safety of the ward or others.
- A guardian with authority to consent to involuntary treatment with prescribed medications may not provide consent without receiving arecommendation and determination from the ward's treating physician, physician assistant, psychiatrist, or advanced practice registered nurse that:
 - a. The proposed prescribed medication is clinically appropriate and necessary to effectively treat the ward and that the ward requires treatment:
 - b. The ward was offered that treatment and refused it or that the wardlacks the capacity to make or communicate a responsible decisionabout that treatment:
 - e. Prescribed medication is the least restrictive form of interventionnecessary to meet the treatment needs of the ward; and
 - d. The benefits of the treatment outweigh the known risks to the ward.
- 7. If no conservator for the estate of the ward has been appointed and if the guardian has been granted authority to make financial decisions on behalf of the ward, the guardian may:
 - Institute proceedings to compel any person under a duty to support the ward or to pay sums for the welfare of the ward to perform that duty.
 - b. Receive money and tangible property deliverable to the ward and apply the money and property for support, care, and education of the ward; but, the guardian may not use funds from the ward's estate for room and board which the guardian or the guardian's spouse, parent, or child have furnished the ward unless a charge for the service is approved by order of the court made upon notice to at least one of the next of kin of the ward, if notice is possible. The guardian shall exercise care to conserve any excess for the ward's needs.
- 8.7. If a conservator has been appointed, all of the ward's estate received by the guardian in excess of those funds expended to meet current expenses for support, care, and education of the ward must be paid to the conservator for management as provided in this title, and the guardian must account to the conservator for funds expended.
- 9.8. A guardian shall file an annual report with the court regarding the exercise of powers and duties in areas of authority specified in the court's order of appointment. The report must describe the status or condition of the ward, including any change of residence and reasons for the change, any medical treatment received by or withheld from the ward, any expenditure and income affecting the ward, any sale or transfer of property affecting the ward, and any exercise of legal authority by the guardian affecting the ward. The report must include changes that have occurred since the previous reporting period and an accounting of the

ward's estate. The guardian also shall report whether the ward continues to require guardianship and whether any powers of the guardian should be increased or limited. The report must be filed with the clerk of district court. The filing of the report does not constitute an adjudication or a determination of the merits of the report nor does the filing of the report constitute the court's approval of the report. The court may approve a report and allow and settle an accounting only upon notice to the ward's guardian ad litem and other interested persons who have made an appearance or requested notice of proceedings. The office of the state court administrator shall provide printed forms that may be used to fulfill reporting requirements. Any report must be similar in substance to the state court administrator's form. The forms must be available in the office of clerk of district court or obtainable through the supreme court's internet website.

- 40.9. Copies of the guardian's annual report to the court and of any other reports required by the court must be mailed to the ward and any interested persons designated by the court in its order. The ward's copy must be accompanied by a statement, printed with not less than double-spaced twelve-point type, of the ward's right to seek alteration, limitation, or termination of the guardianship at any time.
- 41.10. The guardian is entitled to receive reasonable sums for services and for room and board furnished to the ward as approved by the court or as agreed upon between the guardian and the conservator, provided the amounts agreed upon are reasonable under the circumstances. The guardian may request the conservator to expend the ward's estate by payment to third persons or institutions for the ward's care and maintenance.

SECTION 14. AMENDMENT. Section 30.1-28-14 of the North Dakota Century Code is amended and reenacted as follows:

30.1-28-14. Guardianships established before July 1, 1990.

The powers and duties of guardians and the rights and privileges of wards under guardianships established before July 1, 1990, are as provided by this chapter as it existed on June 30, 1990, and are not affected by chapter 405 of the 1989 Session Laws, except that guardians appointed before July 1, 1990, must comply with the requirements of subsections 2, 4, 5, and 98 of section 30.1-28-12.

SECTION 15. Section 30.1-28-16 of the North Dakota Century Code is created and enacted as follows:

30.1-28-16. Court-authorized involuntary treatment with prescribed medication.

- 1. Upon notice and a hearing, a guardian may request authorization from the court for a ward to be treated with prescribed medication. The court may consider the petition in the initial procedure for court appointment of a guardian or at a separate involuntary treatment hearing.
- 2. As a part of a petition, the guardian shall provide a report from the treating expert examiner which must certify:
 - The proposed prescribed medication is clinically appropriate and necessary to treat the ward effectively and that the ward is a person requiring treatment;

- b. The ward was offered that treatment and refused the treatment or that the ward lacks the capacity to make or communicate a responsible decision about that treatment;
- c. Prescribed medication is the least restrictive form of intervention necessary to meet the treatment needs of the ward; and
- d. The benefits of the treatment outweigh the known risks to the ward.
- 3. a. Evidence of the factors certified under subsection 1 may be presented to the court within the petition and during the initial hearing for court appointment of a guardian under section 30.1-28-03 or at a separate involuntary treatment hearing under this section. The court in ruling on the requested authorization for involuntary treatment with prescribed medication shall consider all relevant evidence presented at the hearing, including:
 - (1) The danger the ward presents to self or others;
 - (2) The ward's current condition;
 - (3) The ward's treatment history;
 - (4) The results of previous medication trials;
 - (5) The efficacy of current or past treatment modalities concerning the ward:
 - (6) The ward's prognosis; and
 - (7) The effect of the ward's mental condition on the ward's capacity to consent.
 - b. Involuntary treatment with prescribed medication may not be authorized by the court solely for the convenience of facility staff or for the purpose of punishment.
- 4. If the factors certified under subsection 1 have been demonstrated by clear and convincing evidence, the court may include in the court's findings on the petition, or the court may issue a separate order after notice and hearing, authoring the treating medical professional to involuntarily treat the ward with prescribed medication on such terms and conditions as are appropriate. However, unless specifically authorized by the court, the order for involuntary treatment with prescribed medication may not be in effect for more than ninety days.

SECTION 16. Section 30.1-28-17 of the North Dakota Century Code is created and enacted as follows:

30.1-28-17. Involuntary treatment with prescribed medication hearing.

- 1. The involuntary treatment with prescribed medication hearing, unless waived by the ward or the ward has been released as a person not requiring treatment, must be held within three days, exclusive of weekends and holidays, of the date of the filing of the petition. The court may extend the time for hearing for good cause.
- The ward has the right to an examination by an independent expert examiner if so requested. If the ward is indigent, the county of residence of the ward shall pay for the cost of the examination and the ward may choose an independent expert examiner.

The hearing must be held in the county of the ward's residence or location or the county in which the state hospital or treatment facility treating the ward is located. At the hearing, evidence in support of the request must be presented by the guardian or guardian's private counsel. During the hearing, the guardian and the ward must be afforded an opportunity to testify and to present and cross-examine witnesses. The court may receive the testimony of any other interested person. All individuals not necessary for the conduct of the proceeding must be excluded except that the court may admit individuals having a legitimate interest in the proceeding. The hearing must be conducted in as informal a manner as practical, but the issue must be tried as a civil matter. Discovery and the power of subpoena permitted under the North Dakota Rules of Civil Procedure are available to the ward. The court shall receive all relevant and material evidence that may be offered as governed by the North Dakota Rules of Evidence. There is a presumption in favor of the ward, and the burden of proof in support of the petition is upon the petitioner. If, upon completion of the hearing, the court finds the petition has not been sustained by clear and convincing evidence, the court shall deny the petition.

SECTION 17. Section 30.1-28-18 of the North Dakota Century Code is created and enacted as follows:

30.1-28-18. Length of involuntary treatment with prescribed medication and continuing treatment orders.

An initial order for involuntary treatment with prescribed medication may not exceed ninety days unless the court is presented with evidence the ward will continue to require treatment beyond the ninety-day period with the prescribed medication and the ward habitually has refused the treatment. If the court determines the ward will continue to require treatment with the prescribed medication beyond the ninety-day period and orders continuing treatment, the order for continuing treatment may be for a period not to exceed the term of the appointment of the guardian.

SECTION 18. Section 30.1-28-19 of the North Dakota Century Code is created and enacted as follows:

30.1-28-19. Application.

This chapter does not prohibit a hospital or treatment facility from rendering medical care without consultation, if in the exercise of sound medical judgment that care is immediately necessary and delay would endanger the life of or adversely and substantially affect the health of the ward."

"SECTION 5. AMENDMENT. Section 25-03.1-18.2 of the North Dakota Century Code is amended and reenacted as follows:

25-03.1-18.2. Guardian consent to involuntary treatment with prescribed medication.

Notwithstanding sections 25-03.1-16, 25-03.1-18.1, and 25-03.1-24, if a patient refuses treatment with prescribed medication, a treating physician, physician assistant, psychiatrist, or advanced practice registered nurse may treat the patient with prescribed medication upon consent of the patient's guardian pursuant to subsection 6 of section 30.1-28-12 sections 30.1-28-16, 30.1-28-17, and 30.1-28-18, and 30.1-28-19.

- 1. The guardian's consent for involuntary treatment with prescribed medication may not be in effect for more than ninety days without receiving another recommendation and determination pursuant to subsection 6 of section 30.1-28-12.
- 2. The patient has the right to be free of the effects of medication at the preliminary or treatment hearing by discontinuance of medication no later than twenty-four hours before the hearing unless, in the opinion of the prescriber, the need for the medication still exists or discontinuation would hamper the patient's preparation for and participation in the proceedings."

Page 6, after line 29, insert:

"SECTION 11. AMENDMENT. Subsection 2 of section 30.1-28-03 of the North Dakota Century Code is amended and reenacted as follows:

- 2. The petition for appointment of a guardian must state:
 - a. The name, address, and corporate or agency status of the petitioner, and its connection with or relationship to the proposed ward;
 - b. The name, age, and address of the proposed ward;
 - c. The name and address of any person or institution having care or custody over the proposed ward;
 - d. The names and addresses of the spouse, parents, and adult children or, if none, any adult siblings and any adult with whom the proposed ward resides in a private residence, or, if none, the nearest adult relative;
 - e. A brief description of and the approximate value of the real and personal property and income of the proposed ward, so far as they are known to the petitioner;
 - f. The extent of guardianship authority sought, including full authority, limited authority, or no authority in each area of residential, educational, medical, legal, vocational, and financial decisionmaking unless the petitioner is undecided on the extent of authority in any area, in which case the petition must state the specific areas in which the authority is sought;
 - g. The occupation and qualifications of the proposed guardian;
 - h. The name and address of the attorney, if known, who most recently represented the proposed ward;
 - A statement alleging specific facts establishing the necessity for the appointment of a guardian;
 - The name and address of any current conservator appointed for the proposed ward;
 - k. The name and address of any person designated as an attorney in fact or agent in a power of attorney or as an agent in a health care directive;
 - The name and address of any representative payee for the proposed ward;
 m. That less intrusive alternatives to guardianship have been considered;
 - n. In the form of an attached recent statement, the physical, mental, and emotional limitations of the proposed ward from an expert examiner, if available: and
 - o. Whether the petition seeks to restrict any of the following rights:
 - (1) To vote;
 - (2) To seek to change marital status; or
 - (3) To obtain or retain a motor vehicle operator's license; and

p. If the proposed guardian seeks authority to involuntary treatment with prescribed-psychiatric medication under section 30.1-28-16, a statement alleging specific facts under subsection 3 of section 30.1-28-16 and an attached recent report under subsection 2 of section 30.1-28-16.

SECTION 12. AMENDMENT. Section 30.1-28-04 of the North Dakota Century Code is amended and reenacted as follows:

30.1-28-04. (5-304) Findings - Order of appointment.

- The court shall exercise the authority conferred in this chapter consistent with the maximum self-reliance and independence of the incapacitated person and make appointive and other orders only to the extent necessitated by the incapacitated person's actual mental and adaptive limitations or other conditions warranting the procedure.
- 2. At a hearing held under this chapter, the court shall:
 - a. Hear evidence that the proposed ward is an incapacitated person. Age, eccentricity, poverty, or medical diagnosis alone is not sufficient to justify a finding of incapacity;
 - b. Hear evidence and determine whether there are any existing general durable powers of attorney and durable powers of attorney for health care. If there are validly executed durable powers of attorney, the court shall consider the appointed attorneys in fact and agents appointed thereunder when assessing alternative resource plans and the need for a guardian; and
 - c. Appoint a guardian and confer specific powers of guardianship only after finding in the record based on clear and convincing evidence that:
 - The proposed ward is an incapacitated person;
 - (2) There is no available alternative resource plan that is suitable to safeguard the proposed ward's health, safety, or habilitation which could be used instead of a guardianship;
 - (3) The guardianship is necessary as the best means of providing care, supervision, or habilitation of the ward; and
 - (4) The powers and duties conferred upon the guardian are appropriate as the least restrictive form of intervention consistent with the ability of the ward for self-care.

- 3. Except upon specific findings of the court, a ward may not be deprived of any of the following legal rights: to vote, to seek to change marital status, or to obtain or retain a motor vehicle operator's license.
- 4. The court may find that the ward retains other specific rights.
- 5. The order appointing a guardian confers upon the guardian only those powers and duties specified in the order. In addition to any other powers conferred upon the quardian, the court's order must state whether the guardian has no authority, general authority, or limited authority to make decisions on behalf of the ward in each of the areas of residential, educational, medical, legal, vocational, and financial decisionmaking. A grant of limited authority must specify the limitations upon the authority of the guardian or the authority retained by the ward. The court's order must require the guardian to provide within ninety days from the date of the order a beginning inventory of all assets owned by the ward or in which the ward has an interest. The guardian shall provide a copy of the beginning inventory to the ward and any interested persons designated by the court in its order. Unless terminated earlier by the court, an order appointing or reappointing a guardian under this section is effective for up to five years. At least ninety days before the expiration of the initial order of appointment or any following order of reappointment, the court shall request and consider information submitted by the guardian, ward, ward's attorney, if any, and any interested persons regarding whether the need for a guardian continues to exist. If it is recommended that the guardianship continue, the court may appoint a guardian ad litem or visitor, or both, in accordance with section 30.1-28-03. The court shall hold a hearing on whether the guardianship should continue. Following the hearing and consideration of submitted information, the court may reappoint the guardian for up to another five years, allow the existing order to expire, or appoint a new guardian in accordance with this section. The supreme court, by rule or order, shall provide for the regular review of guardianship in existence on August 1, 2015.
- 6. Unless a court of competent jurisdiction determines otherwise, a durable power of attorney for health care executed pursuant to chapter 23-06.5 takes precedence over any authority to make medical decisions granted to a guardian pursuant to chapter 30.1-28.
- 7. A grant of general authority to make medical decisions includes the authority to consent to involuntary treatment with prescribed medications. Except upon specific

findings of the court, a grant of limited authority does not include authority to consent to involuntary treatment with prescribed medications.

SECTION 13. AMENDMENT. Section 30.1-28-12 of the North Dakota Century Code is amended and reenacted as follows:

30.1-28-12. (5-312) General powers and duties of guardian.

- 1. A guardian of an incapacitated person has only the powers and duties specified by the court.
- 2. To the extent that it is consistent with the terms of an order by a court of competent jurisdiction, the guardian is entitled to custody of the person of the ward and may establish the ward's place of residence within or without this state. However, no guardian may voluntarily admit a ward to a mental health facility or state institution for a period of more than forty-five days without a mental health commitment proceeding or other court order. Notwithstanding the other provisions of this subsection, the guardian may readmit a ward to a mental health facility or a state institution within sixty days of discharge from that institution, if the original admission to the facility or institution had been authorized by the court.
- 3. If entitled to custody of the ward, the guardian should make provision for the care, comfort, and maintenance of the ward and, whenever appropriate, arrange for the ward's training, education, or habilitative services. The guardian shall take reasonable care of the ward's clothing, furniture, vehicles, and personal effects.
- 4. Notwithstanding general or limited authority to make medical decisions on behalf of the ward, no guardian may consent to psychosurgery, abortion, sterilization, or experimental treatment of any kind unless the procedure is first approved by order of the court.
- 5. When exercising the authority granted by the court, the guardian shall safeguard the civil rights and personal autonomy of the ward to the fullest extent possible by:
 - a. Meeting with the ward following the hearing, unless the ward is represented by an attorney, and explaining to the fullest extent possible the contents of the court's order and the extent of the guardian's authority;
 - Involving the ward as fully as is practicable in making decisions with respect to the ward's living arrangements, health care, and other aspects of the ward's care; and
 - c. Ensuring the ward's maximum personal freedom by using the least restrictive forms of intervention and only as necessary for the safety of the ward or others.

- 6. A guardian with authority to consent to involuntary treatment with prescribed medications may not provide consent without receiving a recommendation and determination from the ward's treating physician, physician assistant, psychiatrist, or advanced practice registered nurse that:
 - a. The proposed prescribed medication is clinically appropriate and necessary to effectively treat the ward and that the ward requires treatment;
 - b. The ward was offered that treatment and refused it or that the ward lacks the capacity to make or communicate a responsible decision about that treatment;
 - c. Prescribed medication is the least restrictive form of intervention necessary to meet the treatment needs of the ward; and
 - d. The benefits of the treatment outweigh the known risks to the ward.
- If no conservator for the estate of the ward has been appointed and if the guardian has been granted authority to make financial decisions on behalf of the ward, the guardian may:
 - a. Institute proceedings to compel any person under a duty to support the ward or to pay sums for the welfare of the ward to perform that duty.
 - b. Receive money and tangible property deliverable to the ward and apply the money and property for support, care, and education of the ward; but, the guardian may not use funds from the ward's estate for room and board which the guardian or the guardian's spouse, parent, or child have furnished the ward unless a charge for the service is approved by order of the court made upon notice to at least one of the next of kin of the ward, if notice is possible. The guardian shall exercise care to conserve any excess for the ward's needs.
- 8.7. If a conservator has been appointed, all of the ward's estate received by the guardian in excess of those funds expended to meet current expenses for support, care, and education of the ward must be paid to the conservator for management as provided in this title, and the guardian must account to the conservator for funds expended.
- 9.8. A guardian shall file an annual report with the court regarding the exercise of powers and duties in areas of authority specified in the court's order of appointment. The report must describe the status or condition of the ward, including any change of residence and reasons for the change, any medical treatment received by or withheld from the ward, any expenditure and income

affecting the ward, any sale or transfer of property affecting the ward, and any exercise of legal authority by the guardian affecting the ward. The report must include changes that have occurred since the previous reporting period and an accounting of the ward's estate. The guardian also shall report whether the ward continues to require guardianship and whether any powers of the guardian should be increased or limited. The report must be filed with the clerk of district court. The filling of the report does not constitute an adjudication or a determination of the merits of the report nor does the filing of the report constitute the court's approval of the report. The court may approve a report and allow and settle an accounting only upon notice to the ward's guardian ad litem and other interested persons who have made an appearance or requested notice of proceedings. The office of the state court administrator shall provide printed forms that may be used to fulfill reporting requirements. Any report must be similar in substance to the state court administrator's form. The forms must be available in the office of clerk of district court or obtainable through the supreme court's internet website.

- 10.9. Copies of the guardian's annual report to the court and of any other reports required by the court must be mailed to the ward and any interested persons designated by the court in its order. The ward's copy must be accompanied by a statement, printed with not less than double-spaced twelve-point type, of the ward's right to seek alteration, limitation, or termination of the guardianship at any time.
- 41.10. The guardian is entitled to receive reasonable sums for services and for room and board furnished to the ward as approved by the court or as agreed upon between the guardian and the conservator, provided the amounts agreed upon are reasonable under the circumstances. The guardian may request the conservator to expend the ward's estate by payment to third persons or institutions for the ward's care and maintenance.

SECTION 14. AMENDMENT. Section 30.1-28-14 of the North Dakota Century Code is amended and reenacted as follows:

30.1-28-14. Guardianships established before July 1, 1990.

The powers and duties of guardians and the rights and privileges of wards under guardianships established before July 1, 1990, are as provided by this chapter as it existed on June 30, 1990, and are not affected by chapter 405 of the 1989 Session Laws, except that guardians appointed before July 1, 1990, must comply with the requirements of subsections 2, 4, 5, and 98 of section 30.1-28-12.

SECTION 15. Section 30.1-28-16 of the North Dakota Century Code is created and enacted as follows:

30.1-28-16. Court-authorized involuntary treatment with prescribed medication.

- 1. Upon notice and a hearing, a guardian may request authorization from the court forto consent to a ward to be treated with prescribed medication. The court may consider the petition in the initial procedure for court appointment of a guardian or at a separate involuntary treatment hearing pursuant to section 30.1-28-17.
- 2. As a part of a petition, the guardian shall provide a report from the treating expert examiner or treating physician, physician assistant, psychiatrist, or advanced practice registered nurse which must certify:
 - a. The proposed prescribed medication is clinically appropriate and necessary
 to treat the ward effectively and that the ward is a person requiring
 treatment;
 - <u>b.</u> <u>Thelf the ward was offered that treatment and refused the treatment or that the ward lacks the capacity to make or communicate a responsible decision about that treatment;</u>

 - <u>d.</u> The benefits of the treatment outweigh the known risks to the ward.
- 3. Evidence of the factors certified under subsection 42 may be presented to the court within the petition and during the initial hearing for court appointment of a guardian under section 30.1-28-03 or at a separate involuntary treatment hearing under this section 30.1-28-17. The court in ruling on the requested authorization forto consent to involuntary treatment with prescribed medication shall consider all relevant evidence presented at the hearing, including:
 - (1) The danger the ward presents to self or others;
 - (2) The ward's current condition;
 - (3) The ward's treatment history;
 - (4) The results of previous medication trials;
 - (5) The efficacy of current or past treatment modalities concerning the ward;
 - (6) The ward's prognosis; and
 - (7) The effect of the ward's mental condition on the ward's capacity to consent.

- b. Involuntary treatment with prescribed medication may not be authorized by the court solely for the convenience of facility staff or for the purpose of punishment.
- 4. If the factors certified under subsection 42 have been demonstrated by clear and convincing evidence, the court may include in the court's findings on the petition, or the court may issue a separate order after notice and hearing, authoring the guardian to provide consent to the treating medical professional to involuntarily treat the ward with prescribed medication on such terms and conditions as are appropriate. However, unless specifically authorized by the court, the order forto consent to involuntary treatment with prescribed medication may not be in effect for more than ninety days.

SECTION 16. Section 30.1-28-17 of the North Dakota Century Code is created and enacted as follows:

30.1-28-17. Involuntary treatment with prescribed medication hearing.

- 1. The involuntary treatment with prescribed medication hearing, unless waived by the ward or the ward has been released as a person not requiring treatment, must be held within three business days, exclusive of weekends and holidays, of the date of the filing of the petition. The court may extend the time for hearing for good cause.
- The ward has the right to an examination by an independent expert examiner if so requested. If the ward is indigent, the county of residence of the ward shall pay for the cost of the examination and the ward may choose an independent expert examiner.
- The hearing must be held in the county of the ward's residence or location or the county in which the state hospital or treatment facility treating the ward is located. At the hearing, evidence in support of the request must be presented by the guardian or guardian's private counsel. During the hearing, the guardian and the ward must be afforded an opportunity to testify and to present and cross-examine witnesses. The court may receive the testimony of any other interested person. All individuals not necessary for the conduct of the proceeding must be excluded except that the court may admit individuals having a legitimate interest in the proceeding. The hearing must be conducted in as informal a manner as practical, but the issue must be tried as a civil matter. Discovery and the power of subpoena permitted under the North Dakota Rules of Civil Procedure are available to the ward. The court shall receive all relevant and material evidence that may be

offered as governed by the North Dakota Rules of Evidence. There is a presumption in favor of the ward, and the burden of proof in support of the petition is upon the petitioner. If, upon completion of the hearing, the court finds the petition has not been sustained by clear and convincing evidence, the court shall deny the petition.

SECTION 17. Section 30.1-28-18 of the North Dakota Century Code is created and enacted as follows:

30.1-28-18. Length of involuntary treatment with prescribed medication and continuing treatment orders.

An initial order for a guardian to consent to involuntary treatment with prescribed medication may not exceed ninety days unless the court is presented with evidence the ward will continue to require treatment beyond the ninety-day period with the prescribed medication and the ward habitually has refused the treatment. If the court determines the ward will continue to require treatment with the prescribed medication beyond the ninety-day period and orders continuing treatment, the order for a guardian to consent to continuing treatment may be for a period not to exceed the term of the appointment of the guardian.

SECTION 18. Section 30.1-28-19 of the North Dakota Century Code is created and enacted as follows:

30.1-28-19. Application.

This chapter does not limit the use of medication pursuant to sections 25-03.1-16, 25-03.1-18.1, or 25-03.1-24, or prohibit a hospital or treatment facility from rendering medical care without consultation, if in the exercise of sound medical judgment that care is immediately necessary and delay would endanger the life of or adversely and substantially affect the health of the ward."

Renumber accordingly

2021 HOUSE STANDING COMMITTEE MINUTES

Industry, Business and Labor Committee

Room JW327C, State Capitol

HB 1117 4/12/2021 Conference Committee

Relating to guardian consent to involuntary treatment with prescribed medication

Rep. Roers Jones- Chairman opened the conference committee meeting at 11:00AM

Members Present: Rep. Roers Jones, Rep. Karls, Rep. Buffalo, Senator Dwyer, Senator Fors, Senator Bakke.

Discussion Topics:

- Amendments
- Existing medical provisions

Rosalie Etherington, Chief Clinics Officer, Dept. of Human Services: Oral testimony - Information 11:02
